Anna Karenina Xist Classics:

The Complete Works of Lyof N. Tolstoi: Anna Karenina graf Leo Tolstoy,1899 **Free Will and Classical Theism** Hugh J. McCann,2017 The articles in the present collection deal with the religious dimension of the problem of free will Together they provide a historical and contemporary overview of problems in the theology of freedom along with recent work by some important philosophers in the field aimed at resolving those problems **A Theory of the Classical Novel** Everett Knight,2016-08-05 First published in 1969 this book asserts that two concepts structure and praxis make it impractical for scholars to ignore the necessity of a theory of the novel with the term classical novel used to cover western fiction The author argues that the novel is fundamentally an enterprise an aspect of the praxis of a particular social class and that the ways of orthodox scholarship are also a praxis The investigator must enquire into the nature of their questions as those traditionally put to literature are inspired by irrelevant nineteenth century positivism In the author s view the book is necessarily a theory of the classical novel and a manifesto for the student movement Special Objects Maria J. García-Encinas,Fernando Martínez-Manrique,2025-03-05 This book proposes a different perspective on actual queries within the field of ontology Focusing on non standard objects it offers original answers to classic problems in metaphysics such as individuation reference existence and non existence The chosen ontological fields are for this purpose ontologies that essentially involve human social practices such as intentional objects fictions mental illnesses or social entities Even though the papers can be read independently readers will discover a number of original intersections that provide fresh points of entry to contemporary metaphysical issues By dealing with entities that are not so frequently addressed in related works the book also contributes to broaden their perspective on ontology Both scholars and students will find it particularly useful to have a survey about non standard abstract entities that can provide new topics for their research *Anna Karenina* Leo Tolstoy,2015-02-13 A gripping read of romance intrigue and human emotion *Anna Karenina* has been called the world s greatest novel Set in 19th century Russia Anna seeks to escape a loveless marriage for a passionate romance This Xist Classics edition has been professionally formatted for e readers with a linked table of contents This eBook also contains a bonus book club leadership guide and discussion questions We hope you ll share this book with your friends neighbors and colleagues and can t wait to hear what you have to say about it Xist Publishing is a digital first publisher Xist Publishing creates books for the touchscreen generation and is dedicated to helping everyone develop a lifetime love of reading no matter what form it takes **Handbook of Classical Sociological Theory** Seth Abrutyn,Omar Lizardo,2021-11-01 This is the first handbook focussing on classical social theory It offers extensive discussions of debates arguments and discussions in classical theory and how they have informed contemporary sociological theory The book pushes against the conventional classical theory pedagogy which often focused on single theorists and their contributions and looks at isolating themes capturing the essence of the interest of classical theorists that seem to have relevance to modern research questions and

theoretical traditions This book presents new approaches to thinking about theory in relationship to sociological methods

The Art of Being Yi-Ping Ong, 2018-12-10 The Art of Being is a powerful account of how the literary form of the novel reorients philosophy toward the meaning of existence Yi Ping Ong shows that for Kierkegaard Sartre and Beauvoir the form of the novel in its classic phase yields the conditions for reconceptualizing the nature of self knowledge freedom and the world Their discovery gives rise to a radically new poetics of the nineteenth and twentieth century realist novel For the existentialists a paradox lies at the heart of the novel As a work of art the novel exists as a given totality At the same time the capacity of the novel to compel belief in the free and independent existence of its characters depends on the absence of any perspective from which their lives may be viewed as a consummated whole At stake in the poetics of the novel are the conditions under which knowledge of existence is possible Ong s reframing of foundational debates in novel theory takes us beyond old dichotomies of mind and world interiority and totality and form and mimesis It illuminates existential dimensions of novelistic realism overlooked by empirical and sociological approaches Bringing together philosophy novel theory and intellectual history with groundbreaking readings of Tolstoy Eliot Austen James Flaubert and Zola The Art of Being reveals how the novel engages in its very form with philosophically rich notions of self knowledge freedom authority world and the unfinished character of human life

Russian Classical Literature Today Yordan Ljutskanov, Hristo Manolakev, Radostin Rusev, 2014-06-19 This book explores a range of mis uses of the Russian classical literature canon and its symbolic capital by contemporary Russian literature cinema literary scholarship and mass culture It outlines processes of current canon formation in a situation of the expiration of a literature centric culture that has been imbued with specific messianism and its doubles The book implements Pierre Bourdieu s theory of the cultural field focussing on a field s constitutive pursuit of autonomy and on its flexible resistance to the double pressure of the political field and the economic field It provides material for elaborating this theory through postulating the principal presence of a third factor of heteronomy the strong neighbour within the cultural field Furthermore this volume demonstrates the heuristic of comparing the current Russian mis uses of classical literature to prior Russian and current foreign ones As such it also discusses such issues as the historical relativity of a literary field s notion of autonomy and the geo cultural variability of the Russian literary canon
