Annuaire Franais Relations Internationales 2015:

Encounters between Foreign Relations Law and International Law Helmut Philipp Aust, Thomas Kleinlein, 2021-06-03 A fresh look at the bridges and boundaries between foreign relations law and public international law **Germany's Role in European Russia Policy** Liana Fix, 2021-04-24 This book contributes to the debate about a new German power in Europe with an analysis of Germany's role in European Russia policy. It provides an up to date account of Germany's Ostpolitik and how Germany has influenced EU Russia relations since the Eastern enlargement in 2004 partly along partly against the interests and preferences of new member states. The volume combines a rich empirical analysis of Russia policy with a theory based perspective on Germany's power and influence in the EU. The findings demonstrate that despite Germany's central role exercising power within the EU is dependent on legitimacy and acceptance by other member states **Realism** Alexander Reichwein, Felix Rösch, 2020-12-26 This book examines how IR's European realist tradition evolved in Europe and due to emigration in the United States in the 20th century. It includes an introduction and eight chapters focusing on historical classical and contemporary structural branches of realist IR theorizing in historical and political contexts in which realist thinking did develop. It reminds us of realist key figures such as Edward H. Carr, John H. Herz or Hans J. Morgenthau but also of almost forgotten realists such as Raymond Aron, Stanley Hoffmann or Nicholas J. Spykman. Given IR mainstream textbooks introducing realism as a conservative American Cold War theory, this selection aims to reintroduce realism as a primarily and distinctively European liberal normative and critical tradition. A tradition that is almost always misunderstood as a guide for practitioners how to maximize or at least preserve power in the name of the national interest no matter the cost but that is in fact an argument against reckless and crude power politics ideology and totalitarianism. This book is an invaluable resource for scholars, practitioners and students interested in the realist tradition in IR *Interpretations of the United Nations Convention on the Law of the Sea by International Courts and Tribunals* Angela Del Vecchio, Roberto Virzo, 2019-04-25 This book addresses current developments concerning the interpretation of the United Nations Convention on the Law of the Sea (UNCLOS) on the part of international courts and tribunals. It does so from different perspectives by focusing on the jurisprudence of international and regional bodies such as the International Court of Justice (ICJ), the International Tribunal for the Law of the Sea (ITLOS), the European Court of Justice (ECJ) and the European Court of Human Rights (ECtHR) as well as international arbitral tribunals and the World Trade Organization (WTO) Dispute Settlement Body. The various contributions offer in depth analyses of issues ranging from the interaction between the sources of the International Law of the Sea to various substantial procedural and institutional aspects of the regulatory framework established by UNCLOS. The book also focuses on the reference by international courts and tribunals in Law of the Sea cases to both general principles and rules concerning interpretation codified in the Vienna Conventions on the Law of Treaties **Netherlands Yearbook of International Law 2015** Maarten den Heijer, Harmen van der Wilt, 2016-08-04 Jus cogens is a formidable yet elusive

concept of international law Since its incorporation in the Vienna Convention on the Law of Treaties some 35 years ago it has made tentative inroads into international legal practice But its role in international law is arguably less prominent than might have been expected on the basis of its powerful potential and in view of wider developments in international law that call for constitutionalisation and hierarchy including the processes of fragmentation and humanization This volume of the Netherlands Yearbook of International Law sets out to clarify the concepts and doctrines relevant to jus cogens and to sharpen the debate on its theoretical foundations functions and legal effects To that purpose the volume brings together contributions on the genesis and function of jus cogens on the application of jus cogens in specialised areas of international law and on its enforcement and legal consequences Together they reinforce the understanding of jus cogens as a hierarchical concept of international law and shed light on its potential for further development

African Interventions Emizet F. Kisangani, Jeffrey Pickering, 2021-11-11 A rich and accessible examination of military intervention on the African continent from both foreign and African military actors

The Social Question in the Global World Ewa Bogalska-Martin, Emmanuel Matteudi, 2018-04-18 In an era of rapid globalisation how can the changes that characterise how the social question is addressed in rich and emerging countries be analysed How can one interpret the crisis in the Welfare State and the emergence of new social policies that push for the financial contribution of beneficiaries and the development of new forms of solidarity What can be said about the world's poorest countries and their recurrent difficulty in benefiting from international aid to fight against poverty and ensure the protection of all people This volume brings together 24 researchers from around the world to analyse a series of case studies of developed emerging and developing countries They study the evolution or decline observed in these countries and propose some answers to the issue of the way in which the economic model influences how the social question is taken into account around the world A closer look reveals that the manner in which this question is addressed largely determines how the evolution of the world is perceived While the contributors here highlight how capitalism makes it possible to reflect on the issue of social protection they also show the limits of policies unable to guarantee this protection as soon as the economic situation can no longer allow countries to bear its costs
