Nuclear Science Abstracts ,1968 **Monthly Catalogue, United States Public Documents** ,1994 Bulletin ,1944 **NASA's First Space Shuttle Astronaut Selection** David J. Shayler,Colin Burgess,2020-07-10 Unofficially they called themselves the TFNG or the Thirty Five New Guys Officially they were NASA s Group 8 astronauts selected in January 1978 to train for orbital missions aboard the Space Shuttle Prior to this time only pilots or scientists trained as pilots had been assigned to fly on America s spacecraft but with the advent of the innovative winged spacecraft the door was finally opened to non pilots including women and minorities In all 15 of those selected were categorised as Pilot Astronauts while the other 20 would train under the new designation of Mission Specialist Altogether the Group 8 astronauts would be launched on a total of 103 space missions some flying only once while others flew into orbit as many as five times Sadly four of their number would perish in the Challenger tragedy in January 1986 In their latest collaborative effort the authors bring to life the amazing story behind the selection of the first group of Space Shuttle astronauts examining their varied backgrounds and many accomplishments in a fresh and accessible way through deep research and revealing interviews Throughout its remarkable 30 year history as the workhorse of NASA s human spaceflight exploration twice halted through tragedy the Shuttle fleet performed with magnificence So too did these 35 men and women swept up in the dynamic thrust and ongoing development of America s Space Shuttle program This book on the Group 8 Astronauts the TFNGs is an excellent summation of the individuals first selected for the new Space Shuttle Program It provides insight into what it took to first get the Space Shuttle flying For any space enthusiast it is a must read Robert L Crippen PLT on STS 1 As a reader I had many moments where long lost memories of the triumph and tragedy of the space shuttle program were brilliantly reawakened at the turn of a page Loved it This is a must have book for every space enthusiast s library TFNG Mission Specialist Astronaut Richard Mike Mullane author of Riding Rockets The Outrageous Tales of a Space Shuttle Astronaut Many of the anecdotes in the book brought back memories of challenges opportunities and a team of men and women who were committed not just to the space program but to one another I ve gone back to it several times as a reference source TFNG Steve Hawley 5 time Space Shuttle Mission Specialist Astronaut The TFNG book is incredible and amazingly thorough The detail in the book is awesome It is my go to book for any of the details I ve forgotten TFNG Dr Rhea Seddon 3 time Space Shuttle Mission Specialist Astronaut I can t believe how detailed and complete it is FANTASTIC work TFNG Robert L Hoot Gibson 5 time Space Shuttle Pilot Commander and former Chief of the NASA Astronaut Office **Federal Register** ,1979-08 Eyes on Labor Carol Quirke,2012-07-16 In the twentieth century s first decades U S workers waged an epic struggle to achieve security through unions simultaneously Americans came to interpret current events through newspaper photographs Eyes on Labor brings these two revolutions together revealing how news photography brought workers into the nation s mainstream Carol Quirke focuses on images ignored by scholars but seen by millions of Americans in the news of the

day Part visual analysis part labor and cultural history Quirke analyzes over one hundred photographs stereographs of the Uprising of 1877 tabloid photos of the 1919 strike wave photo essays in the nationally popular LIFE Magazine and even photos taken by a union camera club Quirke anchors her interpretations in a lively historical narrative that takes readers from Washington D C hearings to small towns in Indiana and Pennsylvania to local union halls and to New York City boardrooms Illuminating why unions employers and news publishers vied to represent workers with the camera s eye Eyes on Labor explores how Americans understood the complex and contradictory portrait of labor they produced The Color of Fascism Gerald Horne,2009-09 What does it mean that Lawrence Dennis arguably the brains behind U S fascism was born black but spent his entire adult life passing for white Born in Atlanta in 1893 Dennis began life as a highly touted African American child preacher touring nationally and arousing audiences with his dark skinned mother as his escort However at some point between leaving prep school and entering Harvard University he chose to abandon his family and his former life as an African American in order to pass for white Dennis went on to work for the State Department and on Wall Street and ultimately became the public face of U S fascism meeting with Mussolini and other fascist leaders in Europe He underwent trial for sedition during World War II almost landing in prison and ultimately became a Cold War critic before dying in obscurity in 1977 Based on extensive archival research The Color of Fascism blends biography social history and critical race theory to illuminate the fascinating life of this complex and enigmatic man Gerald Horne links passing and fascism the two main poles of Dennis s life suggesting that Dennis s anger with the U S as a result of his upbringing in Jim Crow Georgia led him to alliances with the antagonists of the U S and that his personal isolation which resulted in his decision to pass dovetailed with his ultimate isolationism Dennis s life is a lasting testament to the resilience of right wing thought in the U S The first full scale biographical portrait of this intriguing figure The Color of Fascism also links the strange career of a prominent American who chose to pass *Current Catalog* National Library of Medicine (U.S.),1970 First multi year cumulation covers six years 1965 70 *Monthly Catalog of United States Government Publications* ,1993 *Keywords Index to U.S. Government Technical Reports* United States.
