14 November Economis Pmemo:

Documents on German Foreign Policy, 1918-1945, from the Archives of the German Foreign Ministry Germany. Auswärtiges Amt,1953 **Between Containment and Rollback** Christian F. Ostermann,2021-04-27 In the aftermath of World War II American policymakers turned to the task of rebuilding Europe while keeping communism at bay In Germany formally divided since 1949 the United States prioritized the political economic and eventually military integration of the fledgling Federal Republic with the West The extraordinary success story of forging this alliance has dominated our historical understanding of the American German relationship Largely left out of the grand narrative of American German relations were most East Germans who found themselves caught under Soviet and then communist control by the post 1945 geo political fallout of the war that Nazi Germany had launched They were the ones who most dearly paid the price for the country s division This book writes the East Germans both leadership and general populace back into that history as objects of American policy and as historical agents in their own right Based on recently declassified documents from American Russian and German archives this book demonstrates that U S efforts from 1945 to 1953 went beyond building a prosperous democracy in western Germany and containing Soviet Communist power to the east Under the Truman and then the Eisenhower administrations American policy also included efforts to undermine and roll back Soviet and German communist control in the eastern part of the country This story sheds light on a darker side to the American Cold War in Germany propaganda covert operations economic pressure and psychological warfare Christian F Ostermann takes an international history approach capturing Soviet and East German responses and actions and drawing a rich and complex picture of the early East West confrontation in the heart of Europe The Army and Economic Mobilization Ralph Elberton Smith,1991

Accountability in the Economic and Monetary Union Menelaos Markakis,2020 The aim of this series is to publish important and original research on EU law The focus is on scholarly monographs with a particular emphasis on those which are interdisciplinary in nature Edited collections of essays will also be included where they are appropriate The series is wide in scope and aims to cover studies of particular areas of substantive and of institutional law historical works theoretical studies and analyses of current debates as well as questions of perennial interest such as the relationship between national and EU law and the novel forms of governance emerging in and beyond Europe The fact that many of the works are interdisciplinary will make the series of interest to all those concerned with the governance and operation of the EU Book jacket Imperialism and Economic Development in Sub-Saharan Africa Simon Mollan,2020-09-09 This book examines the economic and business history of Sudan placing Sudan into the wider context of the impact of imperialism on economic development in sub Saharan Africa From the 1870s onwards British interest s in Sudan began to intensify a consequence of the opening of the Suez Canal in 1869 and the overseas expansion of British business activities associated with the Scramble for Africa and the renewal of imperial impulses in the second half of the nineteenth century Mollan shows the gradual

economic embrace of imperialism in the years before 1899 the impact of imperialism on the economic development of colonial Sudan to 1956 and then the post colonial economic legacy of imperialism into the 1970s This text highlights how state centred economic activity was developed in cooperation with British international business Founded on an economic model that was debt driven capital intensive and cash crop oriented the colonial economy of Sudan was centred on cotton growing This model locked Sudan into a particular developmental path that in turn contributed to the nature and timing of decolonization and the consequent structures of dependency in the post colonial era *Financialization and the World Economy* Gerald A. Epstein, 2005-01-01 The final section offers ideas for policy responses including capital controls and securities transaction taxes BOOK JACKET

Economic Statecraft during the Cold War Frank Cain, 2013-04-03 Discussing a rarely researched aspect of the Cold War this volume uses new material to examine how the United States trade embargo on the Soviet Union and communist China severed relationships with Europe particularly focusing on Great Britain In the late 1940s the US government stopped nearly all exports to the entire Sino Soviet bloc in the belief that it would hinder the expansion of Soviet and Chinese military potential To continue receiving the US Marshall Aid European countries had to impose similar bans but were reluctant because their trade links with the USSR and its satellite countries had existed for centuries The US thereafter negotiated with Europe about what to include or exclude from the list of authorised goods severely straining diplomatic relations *Economic Statecraft during the Cold War* details these negotiations casting new light on the ambivalent US UK relationship and providing insights into the changing emphasis between the Republican and Democrat administrations on the key question of trade embargo by explaining how the firm consistency in the application of the US policy over the succeeding decades of the Cold War was maintained This book will be of much interest to all students and scholars of Cold War history intelligence studies and international history in general **The Royal Navy, Seapower and Strategy between the Wars** C. Bell, 2000-08-02 This revisionist study shows how the Royal Navy's ideas about the meaning and application of seapower shaped its policies during the years between the wars It examines the navy's ongoing struggle with the Treasury for funds the real meaning of the one power standard naval strategies for war with the United States Japan Germany and Italy the influence of Mahan the role of the navy in peacetime and the use of propaganda to influence the British public

What They Wished For Lawrence J. McAndrews, 2014-05-15 As a religious bloc Roman Catholics constitute the most populous religious denomination in the United States comprising one in four Americans With the election of John F Kennedy as president in 1960 they attained a political prominence to match their rapidly ascending socioeconomic and cultural profile From Vietnam to Iraq the civil rights movement to federal funding for faith based initiatives and from birth control to abortion American Catholics have won at least as often as they have lost *What They Wished For* by Lawrence J McAndrews traces the role of American Catholics in presidential policies and politics from 1960 until 2004 Though divided by race class gender and party Catholics have influenced issues of war and peace social justice

and life and death among modern presidents in a profound way starting with the election of President Kennedy and expanding their influence through the intervening years with subsequent presidents McAndrews shows that American Catholics led by their bishops and in some cases their pope have been remarkably successful in shaping the political dialogue and at helping to effect policy outcomes inside and outside of Washington Indeed although they opened this era by helping to elect one of their own Catholic voters have gained so much influence and have become so secure in their socioeconomic status and so confident in their political standing that they closed the era by rejecting one of their own voting for George W Bush over John Kerry in 2004 **The Official History of Privatisation Vol. I** David Parker,2009
