The Regulation of International Shipping: International and Comparative Perspectives Aldo Chircop, Norman Letalik, Ted L. McDorman, Susan Rolston, 2012-06-22 In this work the contributors examine the public law and policy framework for shipping and maritime trade the complex relationship between shipping and the marine environment

Palmer's Index to the Times Newspaper, 1876 *Palmer's Index to the Times Newspaper*, 1876 Covers the period from 1790 to 1905 in The Times of London

Conflict of Laws and International Finance Philip R. Wood, 2007 The book is an exposition of 100 of the major cases which have either created or illustrate well the legal system as we know it today The cases have been chosen primarily for illustrating important points of law in a large variety of legal disciplines

Fundamental Rights at Work and International Labour Standards International Labour Office, 2003 Labour law has long been upheld by the ILO as an essential pillar of development and peace within member States as well as between States This book offers valuable insight on the application of the ILO's international labour standards

The Management of Marine Regions: The North Pacific Edward Miles, Stephen Gibbs, David Fluharty, Christine Dawson, David Teeter, 2021 The North Pacific Project was established at the Institute for Marine Studies University of Washington in September 1976 and was funded by the Rockefeller Foundation This funding eventually covered the period September 1 1976 to August 31 1980 The Project seeks to identify and describe in detail the major marine policy problems of the North Pacific region This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on

a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1982 *International Law for Small-Scale Fisheries* Julia N. Nakamura,2025-03-27 This book provides an original and groundbreaking account of the applicability and key contributions of international law to small scale fisheries a fisheries subsector that has been historically overlooked by governments and international legal scholarship Small scale fisheries constitute most of the world s capture fisheries workforce they sustain the livelihoods of fishers and their communities while building and transmitting traditional knowledge and culture Significant attention has been given to small scale fisheries by the international community over the past decade building the momentum for dedicated research on such a topic Nevertheless the literature examining small scale fisheries from an international legal perspective remains scarce This book fills this gap by systemically examining different international legal regimes to unravel the normative foundations for securing the meaningful participation of small scale fisheries peoples in international fisheries management It connects the ecosystem approach a key principle of international fisheries law and the human rights regime to elucidate the benefits that participatory international fisheries management brings to enhance both the ecological and social aspects of fisheries sustainability It also examines the extent to which fisheries governance is democratic and provides an enabling framework for the integration of fishers knowledge into international fisheries management It is thereby oriented toward more justice and fair outcomes for small scale fisheries This book will be a valuable resource for academics and researchers with an interest in the governance of fisheries in international law the law of the sea environmental law and human rights law as well as to practitioners and policymakers working on the development and implementation of laws and policies governing fisheries and natural resources Emerging Principles of International Environmental Law Sumudu Atapattu,2007-04-30 Emerging Principles of International Environmental Law is ideally suited for any law or environmental studies student practitioner or law academic who is interested in the legal status of emerging principles in the field of international environmental law Among its highlights the text examines the interaction of principles concepts such as sustainable development the precautionary principle etc with one another and how the present international environmental law regime has taken the vast disparity between developed and developing countries into account in designing innovative methods to accommodate this disparity Following an introductory chapter on the development of international environmental law the book explores five concepts principles that have emerged in the recent years in this field and discusses their relationship to one another particularly how they interact and contribute to the achievement of sustainable development sustainable development the precautionary principle the environmental impact assessment process and participatory rights the common but differentiated responsibility principle and the polluter pays principle The final chapter evaluates the emergence of a distinct field of international law called International Sustainable Development Law and discusses its future direction While these principles or concepts have received much attention in previous literature not much attention has been

paid to their interaction with one another and how the present international environmental law regime has taken the vast disparity between developed and developing countries into account in designing innovative methods to accommodate this disparity It is here the strength of the book lies The book was written to provide a firm grasp of international environmental law issues and of international law in general It is intended for the international market for anybody who is interested in the future direction of international environmental law and of sustainable development As such it would be relevant not only to the law student and law academic but also to international organizations such as UNEP Commission on Sustainable Development UNDP and the World Bank as well as for international and national civil society groups engaged in environmental issues and human rights issues Published under the Transnational Publishers imprint **Biodiplomacy**
