Shifting Understandings of Skills in South Africa Simon A. McGrath, 2004 The South African preoccupation with worker skills and skills acquisition is addressed and analyzed in this compilation of essays on the multiple and shifting meanings of the word skill within the country **Finweek**, 2006-05 **Statutory Rules and Orders Other Than Those of a Local, Personal Or Temporary Character (varies Slightly)**. Great Britain. Laws, statutes, etc, 1917 Statutory Rules and Orders Other Than Those of a Local, Personal Or Temporary Character Great Britain, 1921 **Report of an Enquiry Into Apprenticeship and Training for Skilled Occupations in Great Britain and Northern Ireland, 1925-1926** Great Britain. Ministry of Labour, 1927 *Statutory Instruments Other Than Those of a Local, Personal, Or Temporary Character for the Year ...* Great Britain, 1948 An Overview of South African Human Resources Development Andre Kraak, 2004 This book provides an overview of human resources development HRD in South Africa It focuses on three institutional subsystems within the larger South African social system that play an important role in developing human resources namely the youth labour market the world of work with its associated enterprise training system the national system of science and innovation The analysis shows how in the current South African context contradiction and incoherence characterise the interaction between institutions in each of these three subsystems The book also argues that the skills problem is not located only at the high skills end but also in intermediate and low skill needs Each of these skill bands are experiencing severe HRD problems which require urgent resolution The author argues that solutions to these problems lie in cross sectoral governmental policy coordination and implementation and that in the absence of such joined up action HRD problems will continue to fall between the discrete mandates of separate government departments **The Law of South Africa**, 2003 *Human Resources Development Review 2008* Andre Kraak, Karen Press, 2008 Through 25 chapters authored by some of the leading researchers in the field the Human Resources Development Review 2008 provides an extensive overview of the contextual factors driving human resources development in South Africa A key theme throughout the volume is the importance of a multi faceted skills development strategy operating at three levels The first entails high skills policies aimed at expanding export oriented manufacturing production and services provision particularly in new globally competitive niche areas The second relates to the economy's ongoing need for intermediate skills as is evident in the shortage of skilled artisans and technologists Finally the provision of basic entry level skills is important in view of the urgent need for large scale job creation schemes triggered by public sector initiatives to ameliorate high levels of unemployment and despondency especially amongst the youth **British and Colonial Printer and Stationer**, 1932
