14 Life Sciences Paper Limpopo:

Limpopo Life Anneli Ekblom, Michel Notelid, 2025-06-20 Limpopo Life introduces the reader to the material culture oral histories and the negotiation of conservation and landscape in an area now known as Limpopo National Park. Introducing the archaeology of a region that has not been surveyed or discussed, this book connects to the archaeology, history, heritage and conservation discussions in the southern African region as a whole. Vegetation history and paleoecology are combined with archaeological surveys and excavations, written sources, oral histories and travelogues to draw a picture of the diverse landscape of the Limpopo region. Intermixed within this narrative are sections that focus on an individual species, a life history or an event, providing a view of the complex and dynamic interactions. The role of humans in this diverse environment and how they have co-evolved with other species, shaping each other's destinies in a consequential and accidental way, is outlined. This book will be of interest to researchers and students interested in the archaeology, heritage and conservation of Mozambique, Zimbabwe and northern South Africa. It will also be of relevance to readers interested in the social history of the Limpopo and Kruger National Parks and this cross-border area.

The Emerging Policy for Green Economy and Social Development in Limpopo, South Africa Agnes Musyoki, 2012 This paper evaluates the emerging green economy in South Africa using ideas from the concept of sustainable rural livelihoods, which are intimately connected to ecological services in many developing countries. It finds that African communities and governments are prioritising green economy for job creation, poverty alleviation and reducing inequalities while addressing global environmental concerns. What remains problematic, however, is how these objectives are to be achieved. The paper argues that one of the key challenges in South Africa is the gap between policy and implementation of sustainable development, the Millennium Development Goals and other globally driven initiatives. The paper emphasises that green economy policy needs to consider poverty reduction and women's empowerment in order to promote rural sustainable development.
