Legal Education in Asia Andrew J. Harding, Jiaxiang Hu, Maartje de Visser, 2017-11-20 Legal education systems like legal systems themselves were framed across Asia without exception according to foreign models. These reflect the vestiges of colonialism and can be said to amount to imitating the style and purposes of legal education typical in Western and relatively pure common law and civilian systems. Today however we see Asian legal education coming into its own and beginning to accept responsibility for designing curricula and approaches that fit the region's particular needs. This book explores how conventional transplanted approaches as regards program design as well as modes of teaching are or are on the cusp of being reimagined and discerns emerging home grown traces of innovation replacing imitation in countries and universities across East Asia. This volume of the Proceedings of the Nineteenth Session of the Hague Conference on Private International Law encompasses all preparatory work and records of meetings which led to the adoption of the Hague Convention on the Law Applicable to Certain Rights in Respect of Securities held with an Intermediary the Hague Securities Convention. The signing of this Convention on 5 July 2006 by two of the world's major financial markets the United States and Switzerland shows the relevance of the new treaty. Traditional rules based on physical transfers and direct holdings are too diverse and inadequate to deal with securities which are nowadays transferred and pledged by electronic entries to accounts with clearing and settlement systems and other intermediaries. By identifying specific conflict rules the Hague Securities Convention provides a means to remedy this lack of legal certainty which has characterized for too long the field of security transactions. The Proceedings will enable the financial world but also legal practitioners and academics to grasp the background and full objectives of this very innovative international instrument. *Naval Digest 1921* United States. Navy. Office of the Judge Advocate General, 1940. *Hague Securities Convention* The Hague Conference on Private International Law, 2005-11-01. The last several decades have seen a dramatic increase in the value number and speed of cross border securities transactions facilitated by advances in technology. Legal uncertainty as to the law governing the perfection priority and other effects of transfers imposes significant friction costs on even routine transactions and operates as an important constraint on desirable reductions in credit and liquidity exposures. To address the current uncertainties the 19th Diplomatic Session of the Hague Conference on Private International Law unanimously adopted the Convention on the Law Applicable to Certain Rights in Respect of Securities held with an Intermediary the
