Huddart,Tim Stott,2019-10-25 This textbook presents a comprehensive overview of the environmental impacts of various
types of outdoor recreation and how these can be best managed As a field of study recreational ecology is both
multidisciplinary and interdisciplinary and the authors seek to develop a deeper understanding of both the role and function
of the factors that influence visitor numbers and their impact An accessible and comprehensive textbook it features
numerous types of outdoor recreational activities including hill walking rock climbing mountain marathons skiing scuba
diving and more Drawn from several global case studies the authors estimate the current and future numbers involved in
outdoor recreation and how best these numbers can be managed Effective visitor impact management actions arise from
collaboration between recreation ecologists social scientists experienced recreation managers recreation stakeholders and
the recreationalists themselves as such this book will be multi disciplinary in scope This practical and engaging textbook will
be invaluable to students and scholars of outdoor recreation and adventure tourism as well as practitioners and managers
