(ed), Mafongoya, P.L. (ed), 2017-11-15 Climate change presents a profound challenge to food security and sustainable development in Africa Its negative impacts are likely to be greatest in the African region which is already food insecure In the face of global climate change and its emerging challenges and unknowns it is essential that decision makers base policies on the best available knowledge In recent years the knowledge of local and indigenous people often referred to as indigenous knowledge IK has been increasingly recognised as an important source of climate knowledge and adaptation strategies Application of Nanotechnology in Mining Processes Elvis Fosso-Kankeu, Martin Mkandawire, Bhekile B. Mamba, 2022-03-02 b Application of Nanotechnology in Mining

Nanotechnology has revolutionized processes in many industries but its application in the mining industry has not been widely discussed. This unique book provides an overview of the successful implementation of nanotechnology in some of the key environmental and beneficiation mining processes. This book explores extensively the potential of nanotechnology to revolutionize the mining industry which has been relying for a very long on processes with limited efficiencies. The nine specialized chapters focus on applying nanoflotation to improve mineral processing, effective extraction of metals from leachates or pregnant solutions using nanoscale supramolecular hosts and development of nano adsorbents or nano based strategies for the remediation or valorization of AMD. The application of nanotechnology in mining has so far received little attention from the industry and researchers and this groundbreaking book features critical issues so far under reported in the literature. Application of nanotechnology in mineral processing for the enhancement of froth flotation. Development of smart nanomaterials and application for the treatment of acid mine drainage. Recovery of values from pregnant solutions using nanoadsorbents. Valorization of AMD through formation of multipurpose nanoproducts. Audience: Industrial interest will be from mining plant operators, environmental managers, water treatment plants managers and operators. Researchers in nanotechnology, environmental science, mining and metallurgy engineering will find the book valuable as will government entities such as regulatory bodies, officers and environmentalists.

Developing University Entrepreneurial Ecosystems In Sub-saharan Africa Dzidziso Samuel Kamuriwo, Sara Jones, Neil Marshall, Mary Kinoti, 2024-12-13. What is the status of university entrepreneurship and innovation ecosystems in Sub Saharan Africa (SSA)? How could they be strengthened so that students, academic staff and relevant stakeholders that are part of the ecosystems can best produce better quality ventures i.e. that can employ more people or make venture founders more employable? This book provides a current review of the state of teaching entrepreneurship and its impact on SSA and illuminates different ways universities are strengthening their university entrepreneurship and innovation ecosystems. Different approaches in the book fall into four thematic sections namely: 1. the exploitation of digital infrastructure to design and deploy virtual accelerators so as to enhance both scale and reach of entrepreneurship education; 2. the use of a social entrepreneurship lens to illuminate how key stakeholders can work together as well as communicate policy changes that need to be incorporated for effective implementation of ecosystems; 3. ecosystem developments that focus exploiting sector specific knowledge and expertise; and lastly 4. ecosystem design considerations such as factors for effective ecosystem design and curriculum development in SSA. Significant outcomes from the book are highlights of how academic entrepreneurship can be harnessed to overcome challenges facing SSA. The book showcases how digital technologies can be exploited to mainstream entrepreneurship and innovation within and beyond the universities thus improving access to quality education and resources to a much broader audience. In addition, the book demonstrates how to effectively engage all relevant stakeholders in an entrepreneurship ecosystem including how to accurately identify all key stakeholders and assess their contextual needs in SSA education settings so as to inform

ecosystem development strategies Finally the book showcases different approaches to entrepreneurship curriculum developments efforts what it takes to develop pilot or enhance curriculum in SSA as well as how provision of more support for students with specific mechanisms can be offered including different ways of including mentoring coaching or incubation and building academic industry partnership as a way of supporting students

Intersection of Adolescent Sexual, Reproductive, and Mental Health in Sub-Saharan Africa Negussie Boti Sidamo,Zacharie Tsala Dimbuene,Sultan Hussen Hebo,Stephen Chukwudeh,2025-06-18 Adolescence is a crucial stage of development in which young people experience a wide range of emotional social and physical changes One significant aspect of this period is the exploration and emergence of reproductive health and behaviours Alongside this mental health and well being are increasingly recognized as vital components of overall adolescent health and development The intersection of adolescent sexual reproductive and mental health is complex dynamic and multifaceted with numerous social cultural and biological factors influencing these domains Addressing this intersection remains a critical area of research policy and practice to promote healthy adolescent development and empower young people with the knowledge and skills necessary to make informed decisions about their sexual reproductive and mental health In sub Saharan Africa adolescents have greater risk factors and low access to health services that make them prone to such problems This underscores the need to consider an integrated approach to address the sexual reproductive and mental health problems of adolescents living in sub Saharan Africa These insights are pivotal for identifying novel approaches that are highly effective and well tolerated for integrated services to improve the relief of adolescents living in sub Saharan Africa from sexual reproductive and mental health problems

From Polarisation to Multispecies Relationships Janet J. McIntyre-Mills,Yvonne Corcoran-Nantes,2021-08-05 This book explores the concept of multi species relationships and suggests critical systemic pathways to protect shared habitats This book discusses how the eradication of species as a result of rapid urbanisation places humanity at risk This book demonstrates how narrow anthropocentrism has focused on the rights of human beings at the expense of other species and the environment This book explores a priori norms and a posteriori measures and indicators to include and protect multiple species This book aims to strengthen institutional capacity

and powers to address and extend the UN 2030 Sustainable Development Agenda by drawing on local wisdom but also the need to implement laws to prevent ecocide This book highlights that our fragile interdependence requires a recognition of our hybridity and interconnectedness within the web of life and suggests ways to reframe policy within and beyond the nation state to support living systems of which we are a strand
