

Eligible Professional Meaningful Use Core Measures Measure 11 of 13

Stage 1 (2014 Definition)

Last updated: May 2014

Enabling Electronic Access	
Objective:	Provide patients the ability to view online, download and transmit their health information within 90 business days of the information being available to the EP.
Measure:	More than 50 percent of all unique patients seen by the EP during the 120 reporting period are provided timely (available to the patient within 90 business days after the information is available to the EP) online access to their health information, with the ability to view, download, and transmit as a third party.
Exclusion:	Any EP who neither enters nor creates any of the information listed for inclusion, except for "Physical exam" and "Provider's name and office contact information," may exclude the measure.

- Additional Information
- Certification and Recertification Criteria

Definition of Terms

Access – When a patient possesses all of the necessary information needed to view, download, or transmit their information. This could include providing patients with instructions on how to access their health information, the website address they need visit for online access, a printer and registered computer or personal instructions on how to create a log-in, or any other instructions, tools, or materials that patients need in order to view, download, or transmit their information.

View – The patient (or authorized representative) accessing their health information online.

Transmission – Any means of electronic transmission according to any standard specified by (DHQP, HIT, NIST, NCPAP, etc.). However, the collection of physical information (such as, for example, LRS, VCD) does not qualify as transmission although the movement of the information from online to the physical electronic media will be a download.

Business Days – Business days are defined as Monday through Friday according Federal or state holidays on which the EP or their respective administrative staffs are unavailable.

Diagnostic Test Results – All data related to diagnosis and treatment. Examples include, but are not limited to, blood tests, microbiology, urinalysis, pathology tests, radiology (clinical imaging, nuclear medicine tests, cardiovascular function tests).
