Levi,Anne Graffam Walker,2013-11-11 Legal realism is a powerful jurisprudential tradition which urges attention to sodal conditions and predicts their influence in the legal process The rela tively recent sodal sdence in the law phenomenon in which sodal

research is increasingly relied on to deduce court cases is a direct result of realistic jurisprudence which accords much significance in law to empirical reports about social behavior. The empirical research used by courts has not however commonly dealt with language as an influential variable. This volume of essays coedited by Judith N. Levi and Anne Graffam Walker will likely change that situation. Language in the Judicial Process is a superb collection of original work which fits well into the realist tradition and by focusing on language as a key variable it establishes a new and provocative perspective on the legal process. The perspective it offers and the data it presents make this volume a valuable source of information both for judges and lawyers who may be chiefly concerned with practice and for legal scholars and social scientists who do basic research about law.
