Civil Jurisdiction and Judgments Adrian Briggs, 2025-09-30 Now in its 8th edition this well established and respected book by Adrian Briggs continues to deliver a full and complete statement of English law on civil jurisdiction and judgments As the United Kingdom will now not be re joining the Lugano Convention the treatment of judgments from EU Member States and the Lugano States has been reduced and the jurisdictional rules of Brussels Lugano regime are now dealt with only in outline This 8th edition untangles and re ties the loose ends left over from the process of disengagement from the European Union and restates the law of jurisdiction and judgments as it must be understood today Significant new material includes an expanded treatment of the increased opportunities for service out of the jurisdiction with and without permission and of the 2019 Hague Judgments Convention in effect for the United Kingdom from 1 July 2025 Otherwise recent developments of which there have been many across the field of jurisdiction and judgments in civil and commercial matters are examined in proper detail This rigorously updated new edition reasserts its position as an authoritative and comprehensive reference for all lawyers and legal practitioners working in the broad area of commercial litigation

Is China A Menacing Empire? Han Shih Toh, 2024-11-06 China s economic impact on the world through trade investment and infrastructure projects is huge and growing rapidly This has received criticism from officials and politicians in various countries including the US who accused China of neo colonialism setting debt traps in other countries and corruption in overseas Chinese deals This book examines how justified such accusations are and seeks to comment on them in an objective manner This book also explores the tensions between China and the US

Freezing Injunctions in Private International Law Filip Šaranović, 2022-10-27 The extent of available pre judgment asset preservation relief is widely regarded as a unique characteristic of English law and one of the key factors attracting international commercial litigation to the English courts By taking a novel view of the theoretical foundations of a freezing injunction this book challenges the long established view that such an injunction is an in personam form of relief whose sole purpose is to prevent unscrupulous defendants from making themselves judgment proof Dr aranovi combines historical and comparative perspectives to identify several theoretical flaws in the court s jurisdiction to grant this popular form of interim relief The book demonstrates that the current application of private international law rules in this field leads to inequality among litigants and illegitimate encroachment upon the sovereignty of foreign states It proposes a range of possible solutions to alleviate concerns about the scope of freezing injunctions both in the domestic and

international arena **Making One's Way in the World** Martin Bell, 2020-02-28 The book draws on the evidence of landscape archaeology palaeoenvironmental studies ethnohistory and animal tracking to address the neglected topic of how we identify and interpret past patterns of movement in the landscape It challenges the pessimism of previous generations which regarded prehistoric routes such as hollow ways as generally undatable The premise is that archaeologists tend to focus on sites while neglecting the patterns of habitual movement that made them part of living landscapes Evidence of past movement is considered in a multi scalar way from the individual footprint to the long distance path including the traces created in vegetation by animal and human movement It is argued that routes may be perpetuated over long timescales creating landscape structures which influence the activities of subsequent generations In other instances radical changes of axes of communication and landscape structures provide evidence of upheaval and social change Palaeoenvironmental and ethnohistorical evidence from the American North West coast sets the scene with evidence for the effects of burning animal movement faeces deposition and transplantation which can create readable routes along which are favoured resources Evidence from European hunter gatherer sites hints at similar practices of niche construction on a range of spatial scales On a local scale footprints help to establish axes of movement the locations of lost settlements and activity areas Wood trackways likewise provide evidence of favoured patterns of movement and past settlement location Among early farming communities alignments of burial mounds enclosure entrances and other monuments indicate axes of communication From the middle Bronze Age in Europe there is more clearly defined evidence of trackways flanked by ditches and fields Landscape scale survey and excavation enables the dating of trackways using spatial relationships with dated features and many examples indicate long term continuity of routeways Where fields flank routeways a range of methods including scientific approaches provide dates Prehistorians have often assumed that Ridgeways provided the main axes of early movement but there is little evidence for their early origins and rather better evidence for early routes crossing topography and providing connections between different environmental zones The book concludes with a case study of the Weald of South East England which demonstrates that some axes of cross topographic movement used as droveways and generally considered as early medieval can be shown to be of prehistoric origin One reason that dryland routes have proved difficult to recognise is that insufficient attention has been paid to the parts played by riverine and maritime longer distance communication It is argued that understanding the origins of the paths we use today contributes to appreciation of the distinctive qualities of landscapes Appreciation will help to bring about effective strategies for conservation of mutual benefit to people and wildlife by maintaining and enhancing corridors of connectivity between different landscape zones including fragmented nature reserves and valued places In these ways an understanding of past routeways can contribute to sustainable landscapes communities and quality of life **Defences in Unjust Enrichment** Andrew Dyson, James Goudkamp, Frederick Wilmot-Smith, 2016-01-14 This book is the second in a series of essay collections on defences in private law It addresses

defences to liability arising in unjust enrichment The essays are written from a range of perspectives and methodologies Some are doctrinal others are theoretical and several offer comparative insights The most important defence in this area of the law change of position is addressed in detail but many other defences are treated too as well as the interrelations between these defences within the law of unjust enrichment The essays offer novel claims and ways of looking at problems in this challenging area of legal study

Compromised Seamus Bruner,2018-08-16 If you ask most Americans what they think about the FBI they would tell you it s far and away the government agency they trust the most The Bureau has for decades sold an image of itself as efficient professional unbiased and untouchable by corruption That portrait is a sham Seamus Bruner and the Government Accountability Institute have spent years cataloging the widespread conflict of interests of the D C political class They have found massive self enrichment and political bias at the highest levels of government including the Justice Department and the FBI Indeed the nation s most important law enforcement agency has become so compromised that every major investigation should face intense scrutiny from the public the media and from Congress James Comey Robert Mueller Andrew McCabe and the rest of the recent FBI leadership should be forced to answer for the way the Bureau has abused the public trust under their watch

Recognition and Enforcement of Foreign Arbitral Awards Herbert Kronke,Patricia Nacimiento,Dirk Otto,Nicola Christine Port,2024-12-05 Few instruments in international law have become as clearly and successfully established worldwide as the 1958 New York Convention on the Recognition and Enforcement of Foreign Arbitral Awards It has continued to prove itself throughout the fourteen years since the publication of the first edition of this preeminent commentary a period during which the Convention s scope and application have been greatly augmented by numerous court decisions rendered in jurisdictions around the globe and regarding arbitral awards resulting from both commercial and investor State disputes as well as by abundant legal scholarship calling for an updated edition The second edition retains the book s article by article format both text and detailed analysis including each provision s theoretical underpinnings and practical application in a wide variety of jurisdictions around the world The editors have assembled a group of authors some already involved in the first edition some new each of them an experienced practitioner in the field of international arbitration in their particular country and deeply conversant with the leading and most recent arbitrations and relevant court decisions in their domestic case law The

commentary includes updated and expanded coverage of such aspects of arbitration practice as the following application by domestic courts of the grounds for refusal of recognition and enforcement of arbitral awards use of reservations made by Contracting States distinctions between recognition sought at the seat of the arbitration and outside the seat safeguarding due process standards the more favourable rights principle embodied in Article VII 1 forum shopping and the role of formalities and formalism To continue to provide a truly international view of how the Convention functions in practice the analysis thoroughly covers the major recent issues that have arisen in its application and their resolutions in diverse cases The end result is an invaluable work that will prove enormously useful to all international commercial arbitration practitioners and scholars regardless of location
