2014 Math Studiespaper Mark Scheme:

Proving in the Elementary Mathematics Classroom Andreas J. Stylianides, 2016 Although proving is core to mathematics as a sense making activity it currently has a marginal place in elementary classrooms internationally Blending research with practical perspectives this book addresses what it would take to elevate the place of proving at elementary school The book uses classroom episodes from two countries to examine different kinds of proving tasks and the proving activity they can generate in the elementary classroom It examines further the role of teachers in mediating the relationship between proving tasks and proving activity including major mathematical and pedagogical issues that arise for teachers as they implement each kind of proving task In addition to its contribution to research knowledge the book has important implications for teaching curricular resources and teacher education

2014 International Conference on Advanced Education and Management (ICAEM2014), 2014-02-13 The ICAEM2014 aims to bring together researchers educators and students from around the world in both industry and academia for sharing the state of art research results and applications for exploring new areas of research and development and for discussing emerging issues on education and management fields We received a total of 312 submissions from various parts of the world The Technical Program Committee worked very hard to have all papers reviewed before the review deadline The final technical program consists of 92 papers There are one keynote speech and 2 invited sessions The proceedings were published by DEStech Publications Inc and will be submitted to Ei Compendex databases for indexing We would like to mention that due to the limitation of the conference venue capacity we are not able to include many fine papers in the technical program Our apology goes to those authors
