2014 November Geography Memo For Grade 12:

Transit States Abdulhadi Khalaf, Omar AlShehabi, Adam Hanieh, 2014-11-20 There are vast swathes of people in economic migration across the Gulf states today In total Saudi Arabia Kuwait Bahrain United Arab Emirates Oman and Qatar form the largest destination for labour migration in the global South This book studies the impact of this mass migration and its effect on citizenship and workers rights Transit States considers how the transitory labour power these workers provide creates an extraordinary development boom that impacts neighbouring countries The majority of the working population is therefore composed of migrant workers with no citizenship rights The Gulf takes a central place in growing debates around migration and labour in the global economy Transit States confronts the precarious working conditions of migrants in an accessible yet in depth manner

On Unemployment Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers *On Unemployment* explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

Faith Ed Linda K. Wertheimer, 2015-08-18 An intimate cross country look at the new debate over religion in the public schools A suburban Boston school unwittingly started a firestorm of controversy over a sixth grade field trip The class was visiting a mosque to learn about world religions when a handful of boys unnoticed by their teachers joined the line of worshippers and acted out the motions of the Muslim call to prayer A video of the prayer went viral with the title Wellesley Massachusetts Public School Students Learn to Pray to Allah Charges flew that the school exposed the children to Muslims who intended to convert American schoolchildren Wellesley school officials defended the course but also acknowledged the delicate dance teachers must perform when dealing with religion in the classroom Courts long ago banned public school teachers from preaching of any kind But the question remains How much should schools teach about the world s religions Answering that question in recent decades has pitted schools against their communities Veteran education journalist Linda K Wertheimer spent months with that class and

traveled to other communities around the nation listening to voices on all sides of the controversy including those of clergy teachers children and parents who are Muslim Jewish Christian Sikh or atheist In Lumberton Texas nearly a hundred people filled a school board meeting to protest a teacher s dress up exercise that allowed freshman girls to try on a burka as part of a lesson on Islam In Wichita Kansas a Messianic Jewish family s opposition to a bulletin board display about Islam in an elementary school led to such upheaval that the school had to hire extra security Across the country parents have requested that their children be excused from lessons on Hinduism and Judaism out of fear they will shy away from their own faiths But in Modesto a city in the heart of California s Bible Belt teachers have avoided problems since 2000 when the school system began requiring all high school freshmen to take a world religions course Students receive comprehensive lessons on the three major world religions as well as on Sikhism Hinduism Buddhism and often Shintoism Taoism and Confucianism One Pentecostal Christian girl terrified by idols including a six inch gold Buddha learned to be comfortable with other students beliefs Wertheimer s fascinating investigation which includes a return to her rural Ohio school which once ran weekly Christian Bible classes reveals a public education system struggling to find the right path forward and offers a promising roadmap for raising a new generation of religiously literate Americans

Glass, 2016-03-15 On an average morning in Manhattan's Stuyvesant Town housing development birds chirp as early risers dash off to work elderly residents enjoy a peaceful morning stroll and flocks of parents usher their children to school It seems an unlikely location for conflict and strife yet this eighteen block area initially planned as middle class affordable housing is the site of an ongoing struggle between long term rent regulated residents and newer market rate tenants *Priced Out* takes readers into this heated battle as a transitioning neighborhood wrestles with contemporary capitalist strategies and the struggle to preserve renters rights Attempting to replace longtime residents with younger more affluent tenants Stuyvesant Town's owners have disrupted native residents sense of place community and perceived quality of life Through interviews with residents the authors offer an intimate view into the lives of different groups of tenants involved in this struggle for prime real estate in New York from students experiencing the city for the first time to baby boomers hanging on to the vestiges of middle class urban life to older residents who have lived in Stuyvesant Town since it opened in 1947 A compelling account of changing urban landscapes and the struggle for security *Priced Out* offers a comprehensive perspective of a community that to some is becoming unrecognizable as it is upgraded and altered

pitting advocates of social justice against ethno national chauvinists This guide to the recent wave of woke culture wars provides a radical class analysis and critique of the most popular academic trends around diversity and inclusion radical democracy intersectionality privilege theory critical race theory and decoloniality The book further explains the complexity of today's cultural conflicts by examining how these issues are viewed across the political spectrum including populist and postmodern perspectives Exploring historical cultural political and economic developments since the postwar era this follow up to Identity Trumps Socialism provides the reader with everything you wanted to know but were afraid to ask about the campus wars that have gone mainstream *Politics, Protest, and Empowerment in Digital Spaces* Ibrahim, Yasmin, 2016-12-21

With the ubiquitous nature of modern technologies they have been inevitably integrated into various facets of society The connectivity presented by digital platforms has transformed such innovations into tools for political and social agendas *Politics Protest and Empowerment in Digital Spaces* is a comprehensive reference source for emerging scholarly perspectives on the use of new media technology to engage people in socially and politically oriented conversations and examines communication trends in these virtual environments Highlighting relevant coverage across topics such as online free expression political campaigning and online blogging this book is ideally designed for government officials researchers academics graduate students and practitioners interested in how new media is revolutionizing political and social communications *How To Think About Cities* Deborah G. Martin, Joseph Pierce, 2022-11-29

Cities are raucous cacophonous and complex Many dimensions of life play out and conflict across cities intricate landscapes be they political cultural economic or social Urban policy makers and analysts often attempt to cut through the noise of urban disagreement by emphasizing a dominant lens for understanding the key central logic of the city *How To Think About Cities* sees this tendency to selective vision as misleading and ultimately unjust cities are many things at once to different people and communities This book describes the various ways of seeing the functions and landscapes of the city as place frames and the constant process of negotiating which place frames best explain the city as place making Martin and Pierce call for an explicitly hybrid perspective that shifts between many different frames for making sense of cities This approach highlights how any given stance opens up some lines of inquiry and understanding while closing off others Thinking of cities as sites of contested perspectives promotes a synthetic approach to urban analysis that emphasizes difference and political possibility This mosaic view of the city will be a welcome read for those within urban studies geography and social sciences exploring the many faces of urban life
