2014 Zimsec History Paper 1:

The History and Political Transition of Zimbabwe Sabelo J. Ndlovu-Gatsheni, Pedzisai Ruhanya, 2020-10-21 This book is the first to tackle the difficult and complex politics of transition in Zimbabwe with deep historical analysis. Its focus is on a very problematic political culture that is proving very hard to transcend. At the center of this culture is an unstable but resilient nationalist military alliance crafted during the anti-colonial liberation struggle in the 1970s. Inevitably, violence, misogyny, and masculinity are constitutive of the political culture. Economically speaking, the culture is that of a bureaucratic parasitic primitive accumulation and corruption which include invasion and emptying of state coffers by a self-styled Chimurenga aristocracy. However, this Chimurenga aristocracy is not cohesive as the politics that led to Robert Mugabe's ousting from power was preceded by dirty and protracted internal factionalism. At the center of the factional politics was the first family, Robert Mugabe and his wife Grace Mugabe. This book offers a multidisciplinary examination of the complex contemporary politics in Zimbabwe, taking seriously such issues as gender, misogyny, militarism, violence, media, identity, modes of accumulation, the ethnicization of politics, attempts to open lines of credit and FDI, national healing, and the national question as key variables, not only of a complete political culture but also of difficult transitional politics. **South Africa after Apartheid**, 2016-08-15 As South Africa has entered the third decade after the end of apartheid, this book aims at taking stock of the post-apartheid dynamics in the so far often less comprehensively analysed but crucial fields of APRM, relevant politics, social development, land, and regional relations. In the first part of the book, an analysis of some structuring domestic features of post-apartheid South Africa is provided with a focus on political processes and debates around gender, HIV/AIDS, and religion. The second part of the volume focuses on the land question, and part three is looking at South Africa's role in the Southern African region. Contributors are Nancy Andrew, Nicholas Dietrich, Ulf Engel, Harvey M. Feinberg, Anna Maria Gentili, Preben Kaarsholm, Mandisa Mbali, David Moore, Arrigo Pallotti, Roberta Pellizzoli, Chris Saunders, Timothy Scarnecchia, Cheryl Walker, Lorenzo Zambenardi, and Mario Zamponi. *The Southern African Development Community in Zimbabwe* Rich Mashimbye, 2024-02-13 This book narrates the unravelling of Zimbabwe, a country that was once considered an inspiration on the continent of Africa in terms of socioeconomic development. Recognising that many factors contributed to the collapse of the nation and that this collapse was a process that occurred over a long period, it looks at historical events and processes like the colonisation of the country and dispossession of the indigenous people and the misrule, politically motivated violence, and economic mismanagement that followed under Robert Mugabe as the pivotal moments that precipitated the subsequent fall of Zimbabwe. The book also examines the role that the regional intergovernmental organisation, the Southern African Development Community (SADC), played in trying to help Zimbabwe overcome its security, political, and economic challenges. *Africa* Assistant Professor Morten Jerven, 2015-06-11 A valuable corrective to the fraying narrative of African failure. Foreign Affairs. Not so long ago Africa was being described as the hopeless continent. Recently though, talk has turned to

Africa rising with enthusiastic voices exclaiming the potential for economic growth across many of its countries What then is the truth behind Africa's growth or lack of it In this provocative book Morten Jerven fundamentally reframes the debate challenging mainstream accounts of African economic history Whilst for the past two decades experts have focused on explaining why there has been a chronic failure of growth in Africa Jerven shows that most African economies have been growing at a rapid pace since the mid nineties In addition African economies grew rapidly in the fifties the sixties and even into the seventies Thus African states were dismissed as incapable of development based largely on observations made during the 1980s and early 1990s The result has been misguided analysis and few practical lessons learned This is an essential account of the real impact economic growth has had on Africa and what it means for the continent's future

Teaching African History in Schools, 2020-11-04 Emerging from the pioneering work of the African Association for History Education AHE Afrika Teaching African History in Schools offers an original Africa centred contribution to international history education research Edited by AHE Afrika's founders and directors the volume thus addresses a notable gap in this field by showcasing otherwise marginalised scholarship from and about Africa Teaching African History in Schools constitutes a unique collection of nine empirical studies interrogating curriculum and textbook contents and teachers and learners voices and experiences as they relate to teaching and learning African history across the continent and beyond Case studies include South Africa Kenya Rwanda Zimbabwe Malawi Cameroon and Tanzania as well as the UK and Canada Contributors are Denise Bentrovato Carol Bertram Jean Leonard Buhigiro Annie Fatsereni Chiponda Raymond Nkwenti Fru Marshall Tamuka Maposa Abdul Mohamud Sabrina Moisan Reville Nussey Nancy Rushohora Johan Wassermann and Robin Whitburn

environmental humanities *Multidisciplinary Perspectives on Zimbabwe's Liberation Struggle* Munyaradzi

Nyakudya, Wesley Mwatwara, Joseph Mujere, 2022-11-15 This book provides a timely reconceptualization of Zimbabwe's anti-colonial liberation struggle resisting simple binaries in favour of more nuanced critical analysis. Most historiographies characterize Zimbabwe's liberation struggle as being defined by simple bifurcations along racial, ethnic, class and ideological perspectives. This book argues that the nationalist struggle is far more complex than such simple configurations would suggest and that many actors have been overlooked in the analysis. The book broadens our understanding by analysing the roles of a wide range of political figures, organizations and members of the military as well as the media and the often overlooked part that women played. Over the course of the book, the contributors also reflect on the ways in which revolutionary figures have been repainted as sellouts in particular by the ZANU PF ruling party and what that means for the country's interpretation of their recent past. Highlighting in particular the expertise of leading scholars from within Zimbabwe across a range of disciplines, this book will be of interest to researchers of African history, politics and postcolonial studies.

Multiparty Democracy in Zimbabwe Aaron Rwodzi, 2024-03-26 This book provides a comprehensive account of the tumultuous political landscape of Zimbabwe. Delving into historical and contemporary perspectives, the author analyses the relationship between the ruling ZANU PF party and the opposition, exposing the pervasive influence of foreign powers and their regime change agendas. Amidst western imposed economic sanctions, the book examines how political opposition has struggled to maintain its footing in the face of ZANU PF's rhetoric on preserving the nation's sovereignty. Drawing on the powerful theoretical frameworks of Gramsci's hegemony theory and instrumentalism, the book dissects the constraints on multiparty democracy under ZANU PF's rule. From the party's manipulation of liberation narratives to the subtle intricacies of Mugabeism, a violent and ideological stronghold, the author unveils the tactics employed to maintain power. The chapters uncover the pivotal role played by the military throughout Zimbabwe's history, from the days of the liberation struggle to the shocking events of 2017 when Mugabe's grip on power was diminished by the very force that had propped him up for decades. The author reveals how the military's involvement has thwarted opposition players' attempts to claim power. Boldly challenging the notion that constraints solely rest on ZANU PF, this book calls attention to the shortcomings of opposition parties in navigating Zimbabwe's treacherous political landscape. Using compelling evidence and unparalleled analysis, the book is an essential read for those seeking to understand the intricate web of power, manipulation and struggle that has defined Zimbabwe's political journey.

Fast Track Land Occupations in Zimbabwe Kirk Helliker, Sandra Bhatasara, Manase Kudzai Chiweshe, 2021-01-11 This book offers the first detailed scholarly examination of the nationwide land occupations which spread across the Zimbabwean countryside from the year 2000 and led to the state's fast track land reform programme. In an innovative way, it highlights the decentralized character of the occupations by recognizing significant spatial variation around a number of key themes including historical memory, modes of mobilization and gender. A case study

of the land occupations in Mashonaland Central Province based on original research adds empirical weight to the argument. In further identifying and understanding the specificities and complexities of the land occupations the book also frames them by way of a nuanced comparative historical analysis of the three chimurenga. It thus examines the land occupations referred to likely controversially as the third chimurenga with reference to the original anti colonial revolt from the 1890s the first chimurenga and the war of liberation in the 1970s the second chimurenga. Further the book engages critically with the ruling party's chimurenga narrative and the hegemonic understanding of the land occupations within Zimbabwean studies. This book is a crucial read for all scholars and students of post 2000 land and politics in Zimbabwe but also for those more broadly interested in historical comparative analyses of land struggles in Zimbabwe and beyond.

The Rhodesian Air Force in Zimbabwe's War of Liberation, 1966-1980 Darlington Mutanda, 2016-11-22. This book evaluates the development of the Rhodesian Air Force during the Second Chimurenga or Bush War 1966-1980. Airpower in irregular conflict is effective at the tactical level because guerrilla warfare is not a purely military conflict. The Rhodesian Air Force was deployed in a war winning versus a supporting role as a result of the shortage of manpower to deal with insurgency and almost all units of the Rhodesian Security Forces depended on its tactical effectiveness. Technical challenges faced by the Air Force combined with the rate of guerrilla infiltration and the misuse of airpower to bomb guerrilla bases in neighboring countries largely negated the success of airpower.
