The Report: Saudi Arabia 2015 Oxford Business Group, 2015-09-22 While Saudi Arabia s economy remains dominated by its hydrocarbons sector several other sectors have emerged in recent years as key propellers of economic growth The Kingdom s financial services industries have continued to expand steadily despite the liquidity challenges posed by falling oil prices Trade and investment are being treated as key priorities as the government looks to negotiate this altered economic landscape aiming to leverage its large population high per capita income and many sea and air links The country s capital markets sector meanwhile is poised for a period of significant growth on the back of the opening of Tadawul to international investors in 2015 and the raft of regulatory upgrades implemented as result The domestic insurance industry which remains dominated by the motor and medical segments has enjoyed double digit growth over the past five years in both revenue and net profit Elsewhere the targets outlined in Vision 2030 indicate that a period of greater opportunity and integration is on the horizon for private players operating in core sectors such as health care utilities industry and ICT

Still invisible - the stigmatization of Shi'a and other religious minorities in Saudi Arabia , 2015-12-03 Saudi Arabia remains one of the most restrictive countries in the world with regard to religious freedom particularly for Shi a and other religious minorities who continue to face official discrimination social exclusion and state persecution Still invisible the stigmatization of Shi a and other religious minorities in Saudi Arabia highlights how though the state has frequently emphasized the importance of national unity its recent response to demands from Shi a for greater religious freedom and equality have further alienated

many communities This was especially evident in the crackdown on protests in the Eastern Province beginning in 2011 with hundreds of activists killed injured or imprisoned since then This includes death sentences against a prominent Shi a activist Sheikh Nimr Baqir Al Nimr and his nephew Ali Mohammed Baqir Al Nimr despite him being only 17 years old at the time of his alleged offences Shi a in Saudi Arabia have also been subjected to an unprecedented wave of violence by militants apparently linked to Islamic State of Iraq and Al Shams ISIS with at least five major attacks between November 2014 and October 2015 that have killed dozens and injured many more Though these incidents have attracted official condemnation concrete measures to address the underlying problems of sectarianism have yet to be implemented to protect those at risk While the authorities treat civil protests and targeted violence against Shi a and other groups in narrow terms of security Saudi Arabia will likely continue to experience popular protests and the threat of militant violence Securing a long term solution will therefore depend on the ability and commitment of the state to enable its religious minorities to participate as free and equal citizens ending decades of discrimination against them
