Evans, Ellen M. Broido, Kirsten R. Brown, Autumn K. Wilke, 2017-03-06 Create campuses inclusive and supportive of disabled students staff and faculty Disability in Higher Education A Social Justice Approach examines how disability is conceptualized in higher education and ways in which students faculty and staff with disabilities are viewed and served on college campuses Drawing on multiple theoretical frameworks research and experience creating inclusive campuses this text offers a new framework for understanding disability using a social justice lens Many institutions focus solely on legal access and accommodation enabling a system of exclusion and oppression However using principles of universal design social justice and other inclusive practices campus environments can be transformed into more inclusive and equitable settings for all constituents The authors consider the experiences of students faculty and staff with disabilities and offer strategies for addressing ableism within a variety of settings including classrooms residence halls admissions and orientation student organizations career development and counseling They also expand traditional student affairs understandings of disability issues by including chapters on technology law theory and disability services Using social justice principles the discussion spans the entire college experience of individuals with disabilities and avoids any single issue focus such as physical accessibility or classroom accommodations The book will help readers Consider issues in addition to access and accommodation Use principles of universal design to benefit students and employees in academic cocurricular and employment settings Understand how disability interacts with multiple aspects of identity and experience Despite their best intentions college personnel frequently approach disability from the singular perspective of access to the exclusion of other important issues This book provides

strategies for addressing ableism in the assumptions policies and practices organizational structures attitudes and physical structures of higher education

Slow Burn R. Jisung Park, 2025-07-29 How the subtle but significant consequences of a hotter planet have already begun from lower test scores to higher crime rates and how we might tackle them today It's hard not to feel anxious about the problem of climate change especially if we think of it as an impending planetary catastrophe In *Slow Burn* R. Jisung Park encourages us to view climate change through a different lens one that focuses less on the possibility of mass climate extinction in a theoretical future and more on the everyday implications of climate change here and now Drawing on a wealth of new data and cutting edge economics Park shows how climate change headlines often miss some of the most important costs When wildfires blaze what happens to people downwind of the smoke When natural disasters destroy buildings and bridges what happens to educational outcomes Park explains how climate change operates as the silent accumulation of a thousand tiny conflagrations imperceptibly elevated health risks spread across billions of people pennies off the dollar of productivity fewer opportunities for upward mobility By investigating how the physical phenomenon of climate change interacts with social and economic institutions Park illustrates how climate change already affects everyone and may act as an amplifier of inequality Wealthier households and corporations may adapt quickly but without targeted interventions less advantaged communities may not Viewing climate change as a slow and unequal burn comes with an important silver lining It puts dollars and cents behind the case for aggressive emissions cuts and helps identify concrete steps that can be taken to better manage its adverse effects We can begin to overcome our climate anxiety Park shows us when we begin to tackle these problems locally

America's Pastor Grant Wacker, 2014-11-07 More than a conventional biography Grant Wacker's interpretive study deepens our understanding of why Billy Graham has mattered so much to so many and how his uncanny ability to appropriate trends in the wider culture allowed him to transform his born again theology into a moral vocabulary capturing the aspirations and fears of average Americans

The End of Public Schools David W. Hursh, 2015-10-16 *The End of Public Schools* analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public

Training Guide for the End Times David L. Johnson, Richard A.
