Turkey, Russia and Iran in the Middle East Bayram Balci,Nicolas Monceau,2021-09-14 This book explores the complexity of the Syrian question and its effects on the foreign policies of Russia Iran and Turkey The Syrian crisis has had a major effect on the regional order in the Middle East Syria has become a territory where the rivalry between Russia and Western powers is being played out and with the West s gradual withdrawal the conflict will without a doubt have lasting effects locally and on the international order This collection focuses on the effects of the Syrian crisis on the new governance of the Middle East region by three political regimes Russia Iran and Turkey Many articles and a number of books have been written on this conflict which has lasted over ten years but no publication has examined simultaneously and comparatively how these three states are participating in the shared management of the Syrian conflict *Syria: Borders, Boundaries, and the State* Matthieu Cimino,2020-06-13 This book explores the history of Syria s borders and boundaries from their creation 1920 until the civil war 2011 and their contestation by the Islamic State or the Kurdish movement The volume s main objective is to reconsider the artificial character of the Syrian territory and to reveal the processes by which its borders were shaped and eventually internalized by the country s main actors Based on extensive archival research the book first documents the creation and stabilization of Syrian borders before and during the mandates period nineteenth century to 1946 studying Ottoman and French territorialization strategies but also emphasizing the key role of the borderlands in this process In turn it investigates the perceptual boundaries resulting from the conflict and how they materialized in space Lastly it explores the geographical and political imaginaries of non state actors PYD ISIS that emerged from the war

Hensman,2018-06-26 Using an analysis of imperialism and case studies of Syria Iran Iraq Bosnia Russia and Ukraine Global Democracy and the Crisis of Anti Imperialism shows that the purported anti imperialism of many self professed socialists amounts to explicit or implicit support for totalitarianism fascism Islamist theocracy and imperialism The analysis shows that the Russian revolution was followed by a counter revolution and resulted in state capitalism and the revival of Russian imperialism under cover of the Soviet Union Thus the Cold War was actually a prolonged period of inter imperialist rivalry between the United States and Russia A large section of socialists who call themselves anti imperialists oppose only Western imperialism and the despots it supports not Russian imperialism and despots like Bashar al Assad who are supported by it As Russia has moved further and further to the right under Putin they have effectively defected to the far right They and other socialists also mistakenly believe that political democracy is organically connected to capitalism and therefore need not be defended whereas on the contrary democracy is only established by mass struggles and is an indispensable resource in the fight against exploitation and oppression Finally these socialists fail to understand that without internationalism it is impossible to defeat global capitalism and its neoliberal policies All the case studies in this book represent attempts to carry out democratic revolutions which are supported by genuine socialist internationalists but opposed by pseudo anti imperialists The book ends by suggesting steps that can be taken to promote democracy and end mass slaughter **Syria** Samer N.

Abboud,2018-08-08 With more than 500 000 people killed and at least half the population displaced Syria s conflict is the most deadly of the twenty first century Russia s decision to join the war has broken the long military and political stalemate but it looks unlikely to deliver any of the core demands that spawned the original uprising against the Ba athist regime In this fully revised second edition of his acclaimed text Samer Abboud provides an in depth analysis of Syria s descent into civil war the subsequent stalemate and the consequences of Russian military involvement after 2015 He unravels the complex and multi layered drivers of the conflict and demonstrates how rebel fragmentation sustained regime violence international actors and the emergence of competing centers of power tore Syria apart in wholly irreversible ways A resolution to the Syrian catastrophe seems to have emerged in the aftermath of Russia s intervention but as Abboud argues this authoritarian peace contains the seeds of continued and future conflict in Syria While the Assad regime has so far survived the instability violence and insecurity that continue to shape everyday life for the Syrian people portend an uncertain future that will have repercussions on the wider Middle East for years to come **Peace and Conflict 2014** Paul K. Huth,Jonathan
