An Age of Accountability John L. Rury, 2023-10-13

An Age of Accountability highlights the role of test-based accountability as a policy framework in American education from 1970 to 2020. For more than half a century, the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment. The theory of change embedded in almost all test-based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools. This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps, which repeatedly failed to materialize. But even after very clear disappointments, no other policy framework has emerged to challenge its hegemony. The American public today has little confidence in institutions to improve the quality of goods and services they provide, especially in the public sector. As a consequence, many Americans continue to believe that accountability remains a vital necessity, even if educators and policy scholars disagree.

The Political Economy of Foreign Direct Investment in Korea You-il Lee, Richard Lee, Yoon-Jong Jang, 2025-08-15

One of the most spectacular phenomena in the South Korean political economy has been the remarkable escalation of international capital investment, particularly inward foreign direct investment (FDI). This book provides an in-depth look at the evolution of FDI in Korea from the late 1990s to the present day. Charting Korea's transition from state-led capitalism to a more liberalized market, this book assesses the complex interplay between government policy, foreign capital inflows, and multinational corporations (MNCs). It analyzes the key economic policies of the past as well as more recent measures by the Moon Jae-in and Yoon Suk Yeol administrations. The book then conducts an analysis of the socio-economic, cultural, and political dynamics that shape strategies of MNCs today. The book draws on 36 interviews with CEOs of foreign companies operating in Korea to seek their insights into the realities of doing business in Korea. It closes by highlighting the current challenges Korea faces today in integrating into the international economy and suggests solutions for sustaining its economic growth. This book will appeal to scholars of political economy, Korean studies, and economic development. It will also interest business leaders and
