Middle East and Central Asia Dept., 2014-10-27 This issue discusses economic developments in the Middle East North Africa Afghanistan and Pakistan MENAP which continue to reflect the diversity of conditions prevailing across the region Most high income oil exporters primarily in the GCC continue to record steady growth and solid economic and financial fundamentals albeit with medium term challenges that need to be addressed In contrast other countries Iraq Libya and Syria are mired in conflicts with not only humanitarian but also economic consequences And yet other countries mostly oil importers are making continued but uneven progress in advancing their economic agendas often in tandem with political transitions and amidst difficult social conditions In most of these countries without extensive economic and structural reforms economic prospects for the medium term remain insufficient to reduce high unemployment and improve living standards ECIC2014-Proceedings of the 6th European Conference on Intellectual Capital Dagmar Cagánová, Miloš Čambál, 2014-10-04 *African Economic Outlook 2014 Global Value Chains and Africa's Industrialisation* African Development Bank, OECD, United Nations Development Programme, 2014-05-19 The African Economic Outlook 2014 analyses the continent's growing role in the world economy and predicts two year macroeconomic prospects It details the performance of African economies in crucial areas *Overripe Economy* Alan Nasser, 2018-06-20 From industrialisation to the present day Overripe Economy is a genealogy of the emergence of a finance ridden authoritarian austerity plagued American capitalism This panoramic political economic history of the country surveys the ruthlessly competitive capitalism of the nineteenth century the maturation of industrial capitalism in the 1920s the rise and fall of capitalism's Golden Age and the ensuing decline towards the modern era Alan Nasser shows why the emergence of the

persistent austerity of financialised neoliberal capitalism is the natural outcome of mature capitalism's evolution revealing both the key structural and political vulnerabilities of capitalism itself and points towards the kind of system that can transcend it. At the centre of the argument is capitalism's ultimatum: either a new normal of persistent austerity, declining democracy and a privatised state, or a polity and economy characterised by an economic democracy that can ensure both higher wages and a shorter working week.

Introduction to Development Economics Marco Missaglia, Gianni Vaggi, 2025-03-21. This textbook provides an introduction to development economics that examines both the drivers of economic growth and sustainable development. It initially presents development economics within a historical and political context before widening its attention to theories of growth and development, the importance of the Sustainable Development Goals, the imbalance of power between the Global North and South, global development policies and the role of international finance in development. Rather than focusing primarily on neoclassical growth theories, qualitative and quantitative aspects of the development process are both highlighted. This book aims to give readers a broad understanding of the economic drivers of development and the economic theories that underpin them. It will be relevant to undergraduate and postgraduate students interested in development economics and sustainable development.
