2014 SI Ib Psychology Paper:

Positive Psychological Intervention Design and Protocols for Multi-Cultural Contexts Llewellyn Ellardus Van Zyl, Sebastiaan Rothmann Sr., 2019-06-11 This volume presents innovative and contemporary methodologies and intervention protocols for the enhancement of positive psychological attributes in multicultural professional and organizational contexts. Most methods, models, and approaches that underpin positive psychological interventions are confined to clinical samples, closed systems, or monocultural contexts which restrict their applicability to particular contexts. Extensive practical intervention protocols, designs, and methods which usually accompany first draft intervention papers are condensed into brief paragraphs in final manuscripts or removed in their entirety. This in turn reduces their potential for replicability or adoption by consumers, practitioners, or industry. This volume develops guidelines for enhancing positive psychological attributes such as positive moods, e.g. positive affect, life satisfaction, strengths, e.g. gratitude, humour, cognitions, e.g. hope, optimism, and behaviours, e.g. emotional regulation, positive relationship building within various multicultural contexts. Thereby it shows how positive psychology interventions can be replicated to a wide range of contexts beyond those in which they were developed.

Ebook: Life-Span Development Santrock, 2016-09-16 *Ebook Life Span Development* *Learning Forensic Assessment* Rebecca Jackson, Ronald Roesch, 2015-10-05 Major developments in the field since the publication of *Learning Forensic Assessment* are integrated in this revised edition including revised editions of the DSM 5 HCR 20 scale and child custody guidelines. This textbook is designed for graduate students learning forensic assessment and psychologists coming to forensic practice later in their careers. It is organized around five broad areas: Professional and Practice Issues, Adult Forensic Assessment, Juvenile Forensic Assessment, Civil Forensic Assessment, and Communicating Your Findings. Each chapter begins with a strong teaching and learning foundation. The latter part of each chapter is assessment specific, covering available assessment measures and approaches to assessment. The authors go well beyond simple descriptions of assessment measures and provide a conceptual discussion of the evaluation process that helps the reader understand how assessment measures fit into the overall evaluation process. The evaluation component is geared toward assessing the important aspects of the construct as laid out in the early part of each chapter. Each chapter then concludes with a case example to illustrate the measures and techniques described.
