Practical Manual of Tricuspid Valve Diseases Osama I. Soliman, Folkert J. ten Cate, 2017-10-12. This book provides a comprehensive overview of tricuspid valve disease and an overview of different therapeutic options such as surgical and percutaneous approaches, current clinical trials and registries in the field of tricuspid valve disease. The book has an educational goal with key messages highlighted at the end of each chapter to assist comprehension of the often complex concepts. *Practical Manual of Tricuspid Valve Diseases* assists the clinician in dealing with different manifestations of tricuspid valve disease and providing help for choosing the best option for the management of these patients. It therefore serves as the standard reference regarding all aspects of tricuspid valve disease in adults and will be of importance to all medical professionals involved in the management of these patients.

Soil Conservation Service Curve Number (SCS-CN) Method: Current Applications, Remaining Challenges, and Future Perspectives Konstantinos X.

Soulis, 2021-06-04. Probably the most well documented and at the same time simple conceptual method for predicting runoff depth from rainfall depth is the Soil Conservation Service curve number (SCS-CN) method. This Special Issue presents the latest developments in the SCS-CN methodology, including but not limited to novel applications, theoretical and conceptual studies broadening the current understanding, studies extending the method's application in other geographical regions or other scientific fields, substantial evaluation studies and ultimately key advancements towards addressing the key remaining challenges such as improving the SCS-CN method runoff predictions without sacrificing its current level of simplicity, moving towards a unique, generally accepted procedure for CN determination from rainfall runoff data, improving the initial abstraction estimation, investigating the integration of the SCS-CN method in long term continuous hydrological models and the implementation of various soil moisture accounting systems, extending and adopting the existing CNs documentation in a
