Andrey Ronzhin, Alexander Kostyaev

2015 Agric Grade 12 June Exam:

Acoustics of Wood Voichita Bucur, 2025-02-18 The Third Edition of *Acoustics of Wood* offers a comprehensive overview of advanced acoustical techniques for wood characterization and assessment. It stands as an authoritative guide on using ultrasound and acoustic emissions to assess and characterize wood's physical and mechanical properties. Divided into six parts, this extended and updated edition covers a broad spectrum of topics including ultrasonic wave propagation, nondestructive testing methods for wood characterization, and the innovative use of acoustics in quality assessment of wood products. It also explores the acoustic properties vital for musical instruments and the application of acoustics in preserving historically significant art objects and timber structures. With chapters on cutting edge topics like artificial intelligence's role in wood acoustics, readers are invited to explore the intersection of tradition and technology. Targeted at professionals and researchers in materials science, engineering, and conservation, this edition is invaluable for those seeking to deepen their knowledge of wood's acoustic properties. Readers with a background in physics or engineering will find the discussions on ultrasonic techniques and acoustic emissions particularly enlightening. By bridging theoretical concepts with practical applications, this book not only enriches scientific understanding but also opens up new avenues for innovation in wood assessment and preservation.

Gender and Education in Politics, Policy and Practice Marie Carlson, Brynja E. Halldórsdóttir, Branislava Baranović, Ann-Sofie Holm, Sirpa Lappalainen, Andrea Spehar, 2021-11-15 This book presents ideas on education, gender, and intersectionality through a transdisciplinary frame by crossing disciplinary and methodological borders. Exploring the diversity of educational settings ranging from early childhood to adult education, it brings together scholars from various disciplines to discuss, deconstruct, and problematize gender and education in relation to several themes in a comparative, intersectional, local, national, regional, and international perspective. Each chapter approaches the topic in an intersectional and/or transnational manner and creates powerful, gendered educational knowledge. Questions addressed in the book include: What are the challenges or barriers to gender equal education? How can we understand the gaps between formal policies and educational practices? The chapters in the book illustrate how gender and education are relevant and needed concepts within the field of transdisciplinary research. The authors hail from a range of countries such as Croatia, Indonesia, Turkey, UK, as well as the Nordic region, and they critically examine gender and education at all levels and in diverse sectors, and with varied lenses such as neoliberalism in education and the inclusion of newcomers and refugees. The work also critically investigates programs and pedagogical approaches, culture, and values, knowledge, and identity in teacher education. The book further addresses criticisms of Western and Anglophone bias around white feminism and the norm of white male and heterosexual privilege.

Menstruation Matters Bridget J. Crawford, Emily Gold Waldman, 2024-10 Explores the burgeoning menstrual advocacy movement and analyzes how law should evolve to take menstruation into account. Approximately half the population menstruates for a large portion of their lives, but the law is mostly silent about the topic.

Until recently most people would have said that periods are private matters not to be discussed in public But the last few years have seen a new willingness among advocates and allies of all ages to speak openly about periods Slowly around the globe people are recognizing the basic fundamental human right to address menstruation in a safe and affordable way free of stigma shame or barriers to access Menstruation Matters explores the role of law in this movement It asks what the law currently says about menstruation spoiler alert not much and provides a roadmap for legal reform that can move society closer to a world where no one is held back or disadvantaged by menstruation Bridget J Crawford and Emily Gold Waldman examine these issues in a wide range of contexts from schools to workplaces to prisons to tax policies and more Ultimately they seek to transform both law and society so that menstruation is no longer an obstacle to full participation in all aspects of public and private life *Agriculture Digitalization and Organic Production* Andrey Ronzhin,Alexander Kostyaev,2022-11-16

Assessing Academic Literacy in a Multilingual Society Albert Weideman,John Read,Theo du Plessis,2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a

minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience Food Shaman Michael S. Fenster, MD, 2018-06-12

Food We all need it and we all want it We want it delicious and ideally not toxic But how the heck do we make sense of the choices paraded before us when the so called experts can't agree and the guidelines change from day to day Recommendations based on simple sterile laboratory analysis of one nutrient one effect have no place in the pantheon of science nor the pantry of any respectable chef Michael S Fenster MD interventional cardiologist and professional chef separates fact from fiction and wheat from chaff Invoking the power of the total Food Experience that every chef and food lover understands he helps diners focus on what they're eating in a powerful explosion of ceremony and substance As the Food Shaman Chef Dr Mike combines modern knowledge from a variety of disciplines with the ancient ritual of the first chefs and healers the shaman The result is a quantum leap in understanding the power of the Food Experience and why it must nurture our soul through delightful tastes and textures beyond basic nutrition **Computational Science - ICCS 2019**
