2015 Defence Application Training:

Research Anthology on Military and Defense Applications, Utilization, Education, and Ethics Management Association, Information Resources, 2021-05-28 Military technology is highly advanced in terms of technology being used in the field computer applications artificial intelligence and software applications These high performance technologies range from weapons to communications technology to automation in vehicles and weaponry These technologies must be both secure and reliable in harsh environments Research is being focused specifically on that including how military and defense applications operate what modern technologies are being used and the ethics surrounding these applications A holistic view of these applications is necessary for both understanding current military tactics and tools along with the future applications The Research Anthology on Military and Defense Applications Utilization Education and Ethics focuses specifically on military and defense operations expenditure technologies and tools and the ethics surrounding technologies like weaponry and artificial intelligence in the military The chapters cover a wide and diverse range of military and defense applications while providing crucial information on the functions security and reliability of these technologies Beyond an understanding of the applications themselves this book also focuses on military education surrounding these technologies and the ethics of usage to provide a well rounded understanding of research in the field This book is ideal for military consultants military personnel defense agencies national security agencies government officials defense personnel policymakers military educators and trainers stakeholders practitioners researchers academicians and students interested in the latest research in military and defense applications [ECCWS2015-Proceedings of the 14th European Conference on Cyber Warfare and Security 2015](#) Dr Nasser Abouzakhar, 2015-07-01 Complete proceedings of the 14th European Conference on Cyber Warfare and Security Hatfield UK Published by Academic Conferences and Publishing International Limited **Charting a Course: Strategic Choices for a New Administration** Richard D. Hooker (Jr.), 2016 Excerpt from Charting a Course Strategic Choices for a New Administration The new administration takes office in a time of great complexity Our new President faces a national security environment shaped by strong currents globalization the proliferation of new poor and weak states as well as nonstate actors an enduring landscape of violent extremist organizations slow economic growth the rise of China and a revanchist Russia a collapsing Middle East and a domestic politics wracked by division and mistrust While in absolute terms the Nation and the world are safer than in the last century today the United States finds itself almost on a permanent war footing engaged in military operations around the world No formal document describes a grand strategy for the United States and indeed many academics deny that one exists Yet a close look at our history as a world power suggests that core interests and how we secure them have remained generally consistent over time If grand strategy rises above particular strategies intended to secure particular objectives many decades of focusing on nuclear deterrence power projection alliances and partnerships and military and economic strength probably constitute the underpinnings of a coherent grand

strategy How we employ and leverage these instruments of national power to protect defend and advance the national interest is after all the essence of grand strategy In a dangerous world these pillars have provided a strong foundation for national security If our domestic politics can achieve consensus on future threats and solutions America is well positioned to lead and prosper in a world that will remain both dangerous and uncertain R D Hooker Jr Director Institute for National Strategic Studies National Defense University Washington D C Related items Policy Analysis in National Security Affairs New Methods for a New Era can be found here <https://bookstore.gpo.gov/products/sku/008020015610> Operationalizing Counter Threat Finance Strategies can be found here <https://bookstore.gpo.gov/products/sku/008000011311> **ECCWS 2018 17th European Conference on Cyber Warfare and Security V2** Audun Jøsang, 2018-06-21 *Cyber Warfare and Terrorism: Concepts, Methodologies, Tools, and Applications* Management Association, Information Resources, 2020-03-06 Through the rise of big data and the internet of things terrorist organizations have been freed from geographic and logistical confines and now have more power than ever before to strike the average citizen directly at home This coupled with the inherently asymmetrical nature of cyberwarfare which grants great advantage to the attacker has created an unprecedented national security risk that both governments and their citizens are woefully ill prepared to face Examining cyber warfare and terrorism through a critical and academic perspective can lead to a better understanding of its foundations and implications *Cyber Warfare and Terrorism Concepts Methodologies Tools and Applications* is an essential reference for the latest research on the utilization of online tools by terrorist organizations to communicate with and recruit potential extremists and examines effective countermeasures employed by law enforcement agencies to defend against such threats Highlighting a range of topics such as cyber threats digital intelligence and counterterrorism this multi volume book is ideally designed for law enforcement government officials lawmakers security analysts IT specialists software developers intelligence and security practitioners students educators and researchers *Military Design Thinking* Aaron P. Jackson, 2024-09-30 This book examines the newly emergent field of military design thinking how it has been developed inside and outside of military doctrine and the paradigms that underlie its key thinkers and methodologies From the emergence of its initial methodologies in the late 1990s military design thinking s development rapidly accelerated in the mid 2000s in response to perceived failures of existing military doctrine and practice to adapt to the wars of the early 21st century To establish a foundation for exploring the significance of the challenge military design thinking presented to dominant approaches to warfare the early chapters in the book examine the ontology and epistemology of military doctrine which is defined as a written expression of a military s institutional belief system regarding how to wage war They also explain how attempts to incorporate military design thinking into doctrine ultimately led to its assimilation into this belief system requiring military design thinkers to continue to explore and develop the field outside of doctrine Since the mid 2010s non doctrinal military design methodologies have become increasingly prominent within several Western militaries including the US Canada UK Australia and several

European militaries Later chapters offer an exploration of the paradigms underlying non doctrinal as well as doctrinal design methodologies This book highlights how the field has evolved shows how military design thinking differs from its civilian equivalents developed in fields such as commerce and business management and discusses how it may evolve in the near future This book will be of much interest to students of military studies security studies and international relations as well as to military professionals

The EU Treaties and Charter of Fundamental Rights: A Commentary, 2024-08-17 The second edition of The EU Treaties and the Charter of Fundamental Rights A Commentary provides an article by article summary of the TEU the TFEU and the Charter of Fundamental Rights to reflect the latest developments in the law since publication of the first edition in 2019 It offers a quick reference to the provisions of the treaties how they are interpreted and applied in practice and to the most important legal instruments enacted on their basis The fully updated Commentary considers key developments in all areas of EU law including the debates and requirements around the Rule of Law legal decisions in relation to the Covid 19 pandemic climate change measures such as the European Green Deal as well as recent changes to the Common Agricultural Policy It also includes significant court rulings on freedom security and justice migration and asylum as well as issues relating to freedom of movement and Brexit The new edition outlines the Digital Markets Act a major piece of legislation adopted in 2022 and contains significant updates on EU competition law in the light of new Regulations and Guidelines Written by a team of contributors drawn from the Legal Service of the European Commission and from academia the Commentary offers expert guidance to practitioners and academics seeking fast access to the Treaties secondary law and current practice The Commentary follows a set structure offering a short overview of the Article the Article text itself a key references list including essential case law and legislation followed by a structured commentary on the Article The editors and contributors combine experience in practice with a strong academic background and have published widely on a variety of EU law subjects

ECCWS 2017 16th European Conference on Cyber Warfare and Security Academic Conferences and Publishing Limited, 2017 **China's Peaceful Rise** Le Hu, 2025-02-19 This book examines the extent to which China has stabilized its communist regime and defended or pursued its crucial nationalist interests while maintaining a relatively peaceful environment in East Asia Despite a politics which would seem to be unassimilable and assertive policies regarding sovereignty disputes or the Taiwan question China exists more or less peacefully within East Asia This raises an important question how has this being done Using Social Identity Theory and Chinese Communist Party s united front strategy the author uncovers new angles on the mentality and trajectory of Chinese foreign policy in a study that will interest scholars policymakers and journalists

National Defense Authorization Act for Fiscal Year 2005 United States. Congress. House. Committee on Armed Services, 2004
