Beyond Boycotts Philippe Vonnard, Nicola Sbetti, Grégory Quin, 2017-12-18 Sport during Cold War has recently begun to be studied in more depth. Some scholars have edited a book about the US and Soviet sport diplomacy and show how the government of these two countries have used sport during this period notably as a tool of soft power during the Olympic games. Our goal is to continue in this direction and to focus more on the sport field as a place of exchanges during the Cold War. Regarding this point, our aim is to show that there were events beyond boycotts many and that unknown connections existed inside sport. Moreover, many actors were involved in these exchanges. Thus it is important not only to focus on the action of States but also on private actors, international sporting bodies and journalists considering that they acted around sport, an apolitical field as it was a tool to maintain links between the two blocs. Our project offers a good opportunity for young scholars to present original research based on new materials, notably the use of institutional or personal archives. Moreover, it is also a step forward with a view to conduct research within a global history paradigm, one that is still underused in sport academic fields.

Implementing Sport Policy Marc Keech, Iain Lindsey, John Hayton, 2023-07-18 This book critically examines the roles and contributions of different organisations in the implementation of sport policy in the UK and therefore provides an important guide to the complexities of implementing sport policy and of achieving policy goals through and for sport. Presenting analytical chapters by leading sport researchers alongside shorter commentaries by practitioners working in the field, this book outlines the uneven path between policy planning and real world outcomes. Adopting a multi level analysis, this book examines the interlocking structures and challenges of organisations from grassroots voluntary sport to national governing bodies and professional clubs and considers the most important issues affecting UK sport policy today. This is fascinating reading for any student, researcher or practitioner working in sport policy, sport for development, sport management, sport coaching, physical education and related areas of policy such as public health, community development, social policy, public policy and education.
