in Educational Dynamics Enrique H. Riquelme,Dario Paez ,Silvia Cristina da Costa Dutra,2024-06-18 Culture plays a significant role in regulating emotions and influencing the dissemination of education particularly within diverse geographic locations However the impact of culture on emotional dynamics within educational settings is not well understood This is particularly important within contexts of social and cultural diversity where schools must navigate cultural and majority emotional dynamics The aim of this research topic is to provide a comprehensive overview of the current state of the art in the field of emotional dynamics in education with a particular focus on the ways in which culture mediates these dynamics The topic will also explore the problems and solutions deployed within educational contexts of cultural diversity with a specific emphasis on school family and community interaction **American Eldercide** Margaret Morganroth

Gullette,2024-10-18 A bracing spotlight on the avoidable causes of the COVID 19 Eldercide in the United States Twenty percent of the Americans who have died of COVID since 2020 have been older and disabled adults residing in nursing homes even though they make up fewer than one percent of the US population Something about this catastrophic loss of life in government monitored facilities has never added up Until now In *American Eldercide* activist and scholar Margaret Morganroth Gullette investigates this tragic public health crisis with a passionate voice and razor sharp attention to detail showing us that nothing about it was inevitable By unpacking the decisions that led to discrimination against nursing home residents revealing how governments doctors and media reinforced ageist or ableist biases and collecting the previously little heard voices of the residents who survived Gullette helps us understand the workings of what she persuasively calls an eldercide Gullette argues that it was our collective indifference fueled by the heightened ageism of the COVID 19 era that prematurely killed this vulnerable population Compounding that deadly indifference is our own panic about aging and a social bias in favor of youth based decisions about lifesaving care The compassion this country failed to muster for the residents of our nursing facilities motivated Gullette to pen an act of remembrance issuing a call for pro aging changes in policy and culture that would improve long term care for everyone *Innovation and Discoveries in Marine Soundscape*
