Dasein & Upsapiens Augustin Ostace, 2018-09-19 If the SEIN or DASEIN as Being is a common term in present philosophy the term the concept the word of Upsapiens is totally unexpected and completely unorthodox either in biology philosophy psychology or theology What really means Upsapiens It is the basic Sapiens under the big influence of information industry of present times either in classic or Email form which put all the classic structures of Sapiens under pressure

towards an improving in its power of judgments and creativity by overcoming not only of the past times but even of itself into the triad of cosmological biological and ontological structures Therefore Upsapiens will be primarily an overcoming of the Sapiens in itself through itself and within itself a move based upon the ability of Oneself Sapiens in coming and becoming Upsapiens is not at all a form of Supersapiens or another form of Species Sapiens but the co evolution of Sapiens in its oneself becoming towards a better and wiser Species into the sameness Up sapientologist **CONCITIZENS IN SAPIENS** Augustin Ostace,2018-08-01 In order to know myself better gnothi seauton I have to descend into the strongholds of meditation of pondering and of wise silencing by trying to re unite the essence of a thing with its own existence esse et existere In order to know myself better gnothi seauton I have to know what is uncertain around me and inside me regarding the cosmological uncertainties biological uncertainties and ontological uncertainties In order to know myself better gnothi seauton I have to know what is unknown around me and inside of me whatever of the level of universe or of the starry skies upon me and the ones inside me Ultimately in order to know ourselves better of what is known of what is uncertain and of what is unknown must be the duty triad in every school in every college or university of all those who are trying the ontological jump or start up in our Species towards an Up Sapiens Species Encyclopaedist towards Up Sapiens

Subconscious & Uncertainty Augustin Ostace,2018-09-20 No one is an island entire of itself whoever she or he is Everyone out of Species Sapiens has been involved into Mankind in the last of ca about 50 000 years of the supposed age of our Species Sapiens belonging to Genus Homo Anthropos then to Hominid Family Order Primate Class Mammals Phylum Vertebrata and Kingdom Animals Ultimately what is known what is uncertain and what is unknown in our relationship Subconscious Consciousness could be a strong investigation through a synthesis between philosophy theology and psychology by trying to explain at least in part in which way the instinct of the ancestors of Species Sapiens direct line through Primate Hominids Homo had been changed in reason while the ancestors biology of the surviving was changed into human technology of conquering Reason and Technology condensed within the concept of culture both towards the creative conscious of human through the mystery of neo cortex by preserving in the same time all the basic instinct and survival ability which is primarily the basic function of the paleo cortex considered to be the location of the sub consciousness Neocortexologist *Metaphysics of Genome* Augustin Ostace,2018-09-07 We must know ourselves Erkenne uns selbst beyond of the over two thousand years of Delphi inscription Know thyself Erkenne dich selbst If the Sapientosophy means a desired raising in knowledge of the Sapiens towards UpSapiens then the Weapon of Philosophy must go into the multitudes of our Species interconnecting the Philosophy of Amphitheatre like the Philosophy of Being since Parmenides and Heidegger or Philosophy of Akademos and Lyceum through Plato and Aristotle or the Philosophy of Patristics through Sf Augustine and Maxim the Confessor or Philosophy of Scholastic through Duns Scotus and Von Aquin or Philosophy of Rationality through Descartes and Spinoza or Idealist Philosophy through Kant and Hegel or the Philosophy of Phenomenology through Husserl

and Jaspers with the Philosophy of the Book particularly in our On Line times with the Philosophy of Human History reaching the terrible insights of the Human Genome But has Human Genome in its biology as the sum of genes inside of an individuality a special philosophical mystery flourishing into the human of articulated language of the writing alphabet and of the abstract thinking Our endeavor is to shed the modest light upon these basic biological and philosophical concepts of our times Biophilosophist

LEX SAPIENS Augustin Ostace, 2017-05-29 European Union has been plagued by many crisis since its beginning during the fifties and sixties as the periods following the ruins of the World War Two in Europe then during the seventies and eighties the raising of the Euro Communism in founding countries as Germany and Italy through terrorist organizations as RAF in Germany and Brigade Rosse in Italy then in the nineties with the falling of Communism in Eastern Europe with millions migrations from Eastern Europe towards Western Europe adding another millions of refugees out of Africa and Asia particularly out of Islam poor world within Europe Union Our book LEX SAPIENS is trying to reiterate the battlefields of the author with the remnants of communist regime in Eastern Europe which instead of being condemned by the European Institutions Council Parliament Commission is further protected through many irrationalities done by the Europe Union as whole regretfully to many failures and mistakes within Europe Union throughout of its 62 years of existence

LEX SAPIENTOLOGIST RACE & ETHIC'S SAPIENS Augustin Ostace, 2019-01-09 The title in itself is intended to be an encouragement of our Ethics Commission of the United States Congress to which was addressed a petition about a year ago January 2017 regarding the misusing and abusing of the concept of RACE in regarding Species Sapiens Genus Gattung Homo in our American Constitution It is in some way understandable that the human history including the history of the American People has had in its entirety many white links throughout its genesis phases throughout its evolutionary and devolutionary periods and throughout its controversial becoming and fulfillments But to persist in a such dramatic controversial field of different RACE within Species Sapiens Genus Homo Hominid Family Order Primate Class Mammalia Phylum Stamm Vertebrata Kingdom Animalia despite of all anthropological physiological and genetically advancements in the last 50 years including Human Genom Project is a dangerous disregarding of all scientific arguments which are supporting beyond of any doubt that the Species Sapiens is a Species without different Races within Sapientologist

RACE & SAPIENS Augustin Ostace, 2019-01-07 The human history has many white links throughout its genesis phases throughout its evolutionary and devolutionary periods and throughout its controversial becoming and fulfillments One of this high dramatic controversial field is the persistence overall in Western Hemisphere of the concept of Race within the Specie Sapiens Genus Homo Hominid Family Order Primate Class Mammalia Phylum Vertebrata Kingdom Animalia despite of anthropological and genetically advancements in a scientific argumentative way of the Species Sapiens without different Races within Even if the World s Politics and the World s Media are still stubborn in presenting and defending the idea of different Races within our unique Species Sapiens the biologic realities with scientific proofs are beyond of any doubt in favor of the Sapiens Species
