Review Social Media Literacy:

A Critical Hypertext Analysis of Social Media Volker Eisenlauer, 2013-08-15 Facebook in just a few years has become one of the central tools people use to communicate with each other in everyday life. However, the perceived freedom of action on the site and the actual processes that are permitted in Facebook's set up don't always match up. In this book, this gap is examined. This book identifies the interrelations between user text actions and the software environment framing them. It takes a critical perspective on Facebook and develops a model that grants methodological access to complex interlaced practices incorporating media text and literacies. It shows Facebook users employing idiosyncratic and Facebook-specific literacy practices and gives weight to the larger hypothesis of the software service as an ideological setting designed to calculate and standardize human behaviour. Specifically, the book examines text action and automation within Facebook to determine how the software service intervenes in the communicative flow between among profile owners and profile recipients. This is cutting edge work and of huge importance to modern fields of discourse analysis and computer-mediated communication.

Global Perspectives on Social Media Usage Within Governments Chavadi, Chandan, Thangam, Dhanabalan, 2023-08-29 Social media applications have emerged in the last 20 years to meet the different needs of individuals and private sector and public organizations have not been indifferent to these technologies. Social media tools help public institutions and organizations communicate directly with citizens as well as enable two-way communication and enable citizens to participate in all stages from agenda setting to evaluation of policy processes. Central and local governments which use innovative methods to involve citizens in this process attach significance to the development of e-participation tools. Ensuring the participation of citizens in policy processes not only determines the wishes and priorities of citizens but also uses scarce resources effectively and efficiently. Global Perspectives on Social Media Usage Within Governments reveals the best practices of various countries regarding the use of social media by central and local governments according to public administration models. The book presents various case studies on the impact of public administration models on social media use in order to contribute to public administration and social media use. Covering topics such as climate action, knowledge behaviors, and citizen participation, this premier reference source is an essential resource for government officials, public administrators, public policy scholars, social media experts, public affairs scholars, students, and educators of higher education, librarians, researchers, and academicians.

Emergence of Social Media: Shaping the Digital Discourse of the Next Generation Swati Agarwal, Dr. Sharmila Kayal, Dr. Sayak Pal, Dr. Syed Tabrez Hassan, Ms. Ann Mercy J, Dr. Brindhadevi C, Dr. Samuel Okechukwu Omeje, Buike Oparaugo, Mary Onyedikachi Chukwuka, MD.
