An Unspeakable Secret:

An Unspeakable Secret Glenda Hunter, 2014-12-03 Hidden secrets usually don't hide forever as I found out in my own life I woke to the reality that I was hiding abuse in my background Abuse for me started at an early age It was so traumatic that I developed multiple personality disorder MPD or today DID just to be able to cope The great struggle began The greatest feeling that overwhelmed me was one of hopelessness But with the help of God and the encouragement of my loving husband good therapists and caring friends I began my journey to wholeness Can wholeness be found Yes it can HumAnimal Kalpana Seshadri, 2012 Power and counterpower in the space of silence Family Secrets and the Psychoanalysis of Narrative Esther Rashkin, 2014-07-14 Family Secrets and the Psychoanalysis of Narrative is the first book to explore the implications of the psychoanalytic theory of the phantom for the study of narrative literature A phantom is formed when a shameful unspeakable secret is unwittingly transmitted through cryptic language and behavior transgenerationally from one family member to another The haunted individual to whom the encrypted secret is communicated becomes the unwitting medium for someone else's voice and the result is speech and conduct that appear incongruous or obsessive in a variety of ways Through close readings of texts by Conrad Villiers de l'Isle Adam Balzac James and Poe Esther Rashkin reveals how shameful secrets concealed within the unspoken family histories of fictive characters can be reconstructed from their linguistic traces and can be shown not only to drive the characters' speech and behavior but also to generate their narratives First articulated by the French psychoanalysts Nicolas Abraham and Maria Torok the theory of the phantom here represents a radical departure from Freudian Lacanian and other psychoanalytic approaches to literary interpretation In Rashkin's hands it also provides a response to structuralist and poststructuralist critiques of character analysis an alternative to deconstructive strategies of reading and a new vantage point from which to consider problems of intertextuality authorship and the formation and origins of narrative Originally published in 1992 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **The Spectralities Reader** Maria del Pilar Blanco, Esther Peeren, 2013-08-29 Ghosts spirits and specters have played important roles in narratives throughout history and across nations and cultures A watershed moment for this area of study was the publication of Derrida's *Specters of Marx* in 1993 marking the inauguration of a spectral turn in cultural criticism Gathering together the most compelling texts of the past twenty years the editors transform the field of spectral studies with this first ever reader employing the ghost as an analytical and methodological tool The Spectralities Reader takes ghosts and haunting on their own terms as wide ranging phenomena that are not conscripted to a single aesthetic genre or style Divided into six

thematically discreet sections the reader covers issues of philosophy politics media spatiality subject formation gender race and sexuality and historiography It anthologizes the previously published work of theoretical heavyweights from different disciplinary and cultural backgrounds such as Jacques Derrida Gayatri Spivak and Giorgio Agamben alongside work by literary and cultural historians such as Jeffrey Sconce and Roger Luckhurst

The Spectral Body Dragon Zoltan, 2009-05-27

The Spectral Body Aspects of the Cinematic Oeuvre of István Szabó analyses some of the films made by Academy Award winner Hungarian filmmaker István Szabó to establish an interpretative matrix disclosing the root of haunting effects in the visual and the narrative levels of the diegesis By combining two distinct and often incongruous lines of psychoanalytic thought by Nicolas Abraham and Jacques Lacan Zoltán Dragon argues that these films are fuelled by the work of a phantom on all levels hiding the secrets of the family history of the characters and producing uncanny visual scenarios to make the act of hiding even more effective The book brings the reader into the realm of the phantom text generating the film texts and crypt screens of the oeuvre and investigates the causes of undiscussible and painful secrets that propel some pivotal characters to reappear in subsequent films apparently driven by a compulsion to continue their narration failing to finish their stories even when they appear to be successful

The Spectral Body Aspects of the Cinematic Oeuvre of István Szabó introduces a visual reinterpretation of Abraham's phantom theory that opens up possibilities for an alternative way of studying film I first saw this work in the form of a full and detailed draft I was impressed by the boldness of the ideas the attempt to integrate and work with different theoretical positions and the quite extraordinary reading of the films of István Szabó There was clearly a powerful and creative and original intelligence at work A further draft accomplished one important thing that had been missing from the first one the direct analysis of the visual material and its contribution to the overall narrative and theoretical framework The work employs a psychoanalytic framework with some key concepts such as the phantom drawn from the work of Torok and Abraham This theory is fairly well known but it has not to my knowledge been used in any extensive way in the analysis of film texts before Zoltán also makes reference to Freud and uses some Lacanian ideas in his analysis at the level of the visual These multiple theoretical references are not inconsistent they are finely judged and are most productive Theory is never used as a grid to be imposed on the material There is a fine balance between theory and textual analysis that is hard to achieve but it is successful here I think that the position that Zoltán Dragon has forged for himself and from which he writes is a highly original and interesting one He has been most successful in developing his framework in relation to Szabó's oeuvre which he knows in the greatest detail His readings of that oeuvre are rich and powerful and will provoke considerable debate in the world of film studies and also of psychoanalytical studies

Murder Most Queer Jordan Schildcrout, 2014-10-09 The villainous homosexual has long stalked America's cultural imagination most explicitly in the figure of the queer murderer a character in dozens of plays But as society's understanding of homosexuality has changed so has the significance of these controversial characters especially when employed by LGBT theater artists themselves to explore darker fears and desires *Murder Most Queer* examines the shifting meanings of murderous LGBT characters in American theater over a century showing how these representations wrestle with and ultimately subvert notions of gay villainy *Murder Most Queer* works to expose the forces that create the homophobic paradigm that imagines sexual and gender nonconformity as dangerous and destructive and to show how theater artists and for the most part LGBT theater artists have rewritten and radically altered the significance of the homicidal homosexual Jordan Schildcrout argues that these figures far from being simple reiterations of a homophobic

archetype are complex and challenging characters who enact trenchant fantasies of empowerment replacing the shame and stigma of the abject with the defiance and freedom of the outlaw giving voice to rage and resistance These bold characters also probe the darker anxieties and fears that can affect queer lives and relationships Instead of sentencing them to the prison of negative representations this book analyzes the meanings in their acts of murder confronting the real fears and desires condensed in those dramatic acts

Disarming Words Shaden M. Tageldin, 2011-06-12 In a book that radically challenges conventional understandings of the dynamics of cultural imperialism Shaden M Tageldin unravels the complex relationship between translation and seduction in the colonial context She examines the afterlives of two occupations of Egypt by the French in 1798 and by the British in 1882 in a rich comparative analysis of acts fictions and theories that translated the European into the Egyptian the Arab or the Muslim Tageldin finds that the encounter with European Orientalism often invited colonized Egyptians to imagine themselves equal to or even masters of their colonizers and thus paradoxically to translate themselves toward virtually into the European Moving beyond the domination resistance binary that continues to govern understandings of colonial history Tageldin redefines cultural imperialism as a politics of translational seduction a politics that lures the colonized to seek power through empire rather than against it thereby repressing its inherent inequalities She considers among others the interplays of Napoleon and Hasan al Attar Rifa a al Tahtawi Silvestre de Sacy and Joseph Agoub Cromer Ali Mubarak Muhammad al Siba i and Thomas Carlyle Ibrahim Abd al Qadir al Mazini Muhammad Husayn Haykal and Ahmad Hasan al Zayyat and Salama Musa G Elliot Smith Naguib Mahfouz and Lawrence Durrell In conversation with new work on translation comparative literature imperialism and nationalism Tageldin engages postcolonial and poststructuralist theorists from Frantz Fanon Edward Said and Gayatri Spivak to Jean Baudrillard Walter Benjamin Emile Benveniste and Jacques Derrida

Collision of Realities Lars Schmeink, Astrid Böger, 2012-05-29 Even though the fantastic in its most inclusive definition has been a part of our culture for as long as it exists it has not been a prominent feature of European academic interest With its inherent transgressive moment the fantastic allows for an ideal space of the cultural negotiation of political social and physical boundaries which should place it at the center of popular cultural research not as is the case at its periphery But the commencing boom of fantastic themes in contemporary media production has facilitated a paradigmatic change in research prompting a wide interest in the fantastic in all its forms from fantasy to horror from fairy tale to science fiction This volume addresses this growing interest by reviewing the status of research on the fantastic in Europe so far and by providing a necessary outlook for the future In the essays current trends such as the liminality debate as well as established discourses as for example on genre theory are brought together to show interested researchers a network of interdisciplinary from literary media and social studies approaches towards the fantastic

Keats, Narrative and Audience Andrew Bennett, 1994-03-24 Andrew Bennett's original study of Keats focuses on questions of narrative and audience as a

means to offer new readings of the major poems It discusses ways in which reading is figured in Keats's poetry and suggests that such figures of reading have themselves determined certain modes of response to Keats's texts Together with important new readings of Keats's poetry the study presents a significant rethinking of the relationship between Romantic poetry and its audience Developing recent discussions in literary theory concerning narrative readers and reading the nature of the audience for poetry and the Romantic invention of posterity Bennett elaborates a sophisticated and historically specific reconceptualization of Romantic writing

Transcending Shadows Yao Lin, 2024-10-03 Based on interviews with three generations of three families this book clarifies why the Cultural Revolution in China 1966-1976 had a uniquely traumatic impact on those affected and shows the forms this trauma has taken in the lives of their second and third generations at both inter-subjective and intra-psychic levels As a psychoanalytically oriented qualitative study of the aftermath of the Cultural Revolution this book investigates the role played by the beliefs practices and narratives which were ideologically formative during the Cultural Revolution showing their role in the trans-generational transmission of trauma and how they still prevent a collective means of dealing with this trauma today Instead of a collective remembering a collective repression prevents the symbolization of memory on a societal level and families serve as a space for this unresolved trauma In this context psychoanalysis is shown to be an effective way of interrupting and healing the transmission of trauma across the generations Within a longer historical framework this book also explores the Cultural Revolution as a defensive compulsory repetition of the traumas that China had previously experienced on a political and cultural level Bearing witness to a personal process of transforming a wound into work this first person account offers in depth understanding and guidance for psychotherapists and psychoanalysts engaged in interrupting and healing the trans-generational transmission of trauma

Nietzsche's Epic of the Soul T. K. Seung, 2005-06-14 Thus Spoke Zarathustra is Nietzsche's most problematic text There appears to be no thematic connection between its four Parts and numerous sections To make it even worse the book contains a number of thematic contradictions The standard approach has been a method of selective reading that is most critics select a few brilliant passages for edification and ignore the rest This approach has turned Nietzsche's text into a collection of disjointed fragments Going against this prevalent approach T. K. Seung presents the first unified reading of the whole book He reads it as the record of Zarathustra's epic journey to find spiritual values in the secular world The alleged thematic contradictions of the text are shown to indicate the turns and twists that are dictated by the hero's epic battle against his formidable opponent His heroic struggle is eventually resolved by the power of a pantheistic nature religion Thus Nietzsche's ostensibly atheistic work turns out to be a highly

religious text The author uncovers this epic plot by reading Nietzsche's text as a baffling series of riddles and puzzles Hence his reading is not only edifying but also breathtaking In this unprecedented enterprise the author takes a complex interdisciplinary approach engaging the five disciplines of philosophy psychology religious studies literary analysis and cultural history
