Perspectives on Language Research

Marinela Burada, Oana Tatu, Raluca Sinu, 2024-09-11 Dedicated to language related research the present volume brings together contributions that reflect the interests experiences and challenges of theorists practitioners and language instructors today Drawing on case studies and authentic data the articles showcase issues concerning on the one hand the analysis of language structure at various levels phonology morphology syntax and on the other the construction of text and identity in areas such as teaching academic writing or translation The diversity of topics and approaches makes Perspectives on Language Research a valuable resource for students and specialists in language and communication

The Complexity of Bird Behaviour Paul M. W. Hackett, 2020-01-20 This book presents the facet theoretical framework as a tool for facilitating the conception of complex animal behaviour research and the design of research procedures through employing mapping sentences Using the facet theoretical framework this book takes a holistic view of bird behaviour Components of bird behavior are identified and then reassembled to facilitate an understanding of the behaviour in the context of its natural occurrence This provides new insight on both the parts of the behaviour and how these interact as a whole The multi faceted approach to designing evaluating and understanding bird behavior presented offers a template that is adaptable for

investigating a wide variety of avian species and different forms of behaviour Behavioural biologists animal and comparative psychologists other natural and behavioural scientists as well as students of these disciplines will find this book to be an interesting and enlightening read
