

Foreign Policy After the Cold War

MAIN IDEA

The end of the Cold War, marked by the breakup of the Soviet Union in 1991, led to a redirection of many U.S. goals and policies.

WHY IT MATTERS NOW

After the Cold War, the United States provided and continues to provide substantial economic support to the new capitalistic and democratic nations.

One American's Story

Colin Powell did not start out in life with any special privileges. He was born in Harlem and raised in the Bronx, where he enjoyed street games and tolerated school. Then, while attending the City College of New York, he joined the Reserve Officer Training Corps (ROTC). He got straight A's in ROTC, and so he decided to make the army his career.

Powell served first in Vietnam and then in Korea and West Germany. He rose in rank to become a general; then President Reagan made him national security adviser. In this post, Powell noted that the Soviet Union was a factor in all the administration's foreign policy decisions.

A PERSONAL VOICE COLIN POWELL

"Our choosing sides in conflicts around the world was almost always decided on the basis of East-West competition. The new Soviet leader, Mikhail Gorbachev, however, was turning the old Cold War formulas on their head. . . . Ronald Reagan . . . had the vision and flexibility, lacking in many knee-jerk Cold Warriors [participants in the Cold War between the U.S. and the USSR], to recognize that Gorbachev was a new man in a new age offering new opportunities for peace."

—*My American Journey*

Though U.S. foreign policy in the early 1980s was marked by intense hostility toward the Soviet Union, drastic economic problems in the Soviet Union destroyed its ability to continue the Cold War standoff.

General
Colin Powell

The Cold War Ends

In March of 1985, **Mikhail Gorbachev** became the general secretary of the Communist Party in the Soviet Union. His rise to power marked the beginning of a new era in the Soviet Union.

Raja Mohan,2025-09-23 Few regions have transformed as consequentially as Asia in the twenty first century In recent decades China has risen faster than its neighbours and today outranks its major proximate competitors India and Japan on economic and defence indices by huge margins The United States interest in balancing against China is especially significant for India because the contradictions between New Delhi and an increasingly assertive Beijing are the sharpest in the region In this Adelphi book C Raja Mohan delineates the prospects for an Indian role in structuring a new Asian geopolitical order Grounding his analysis in the often neglected evolution of modern Indian foreign and security policies from the colonial era to the twenty first century Mohan argues that China s rise has compelled India to discard its traditional ambivalence about Chinese power and counter Beijing by strengthening its own national power and developing partnerships with other states primarily the US In addition to considering potential challenges to the emerging US India strategic relationship the book evaluates India s likely contributions to a new Asian security political and economic order in the light of both New Delhi s enduring regional interests and the policy changes envisioned by the second Trump administration
