Reinforcements Heidi Grant,2018-06-12 Humans have a natural instinct to help others Imagine walking up to a stranger on the subway and asking them for their seat What about asking a random person on the street if you could borrow their phone If the idea makes you squeamish you re not alone social psychologists have found that doing these very things makes most of us almost unbearably uncomfortable But here s the funny thing even though we hate to ask for help most people are wired to be helpful And that s a good thing because every day in the modern uber collaborative workplace we all

need to know when and how to call in the cavalry However asking people for help isn't intuitive in fact a lot of our instincts are wrong As a result we do a poor job of calling in the reinforcements we need leaving confused or even offended colleagues in our wake This pragmatic book explains how to get it right With humor insight and engaging storytelling Heidi Grant PhD describes how to elicit helpful behavior from your friends family and colleagues in a way that leaves them feeling genuinely happy to lend a hand Whether you're a first time manager or a seasoned leader getting people to pitch in is what leadership is Fortunately people have a natural instinct to help other human beings you just need to know how to channel this urge into what it is you specifically need them to do It's not manipulation It's just management *Selling Power*, 2007
