Murphy, 2023-12-14 Now more than ever an increased emphasis is needed on educational changes and innovations to effectively prepare health and social service professionals for 21st century practice Earlier work of the Lancet Independent Global Commission has been instrumental in validating the need for curricula change to include a focus on social determinants public health priorities and strategies to sustain healthy communities The need to further strengthen the public health focus within health and social service education has been fuelled by the COVID 19

pandemic and the growing recognition of specific issues challenging society such as that highlighted within the technical report recently released by the World Health Organization recognizing Parkinson's Disease as a public health issue. Each is an example of the need to prepare a future health and social service workforce well equipped in responding to major public health issues while contributing to global health and human wellbeing. The goal of this Research Topic is to provide additional evidence-based contributions to strengthen the public health focus in health and social service education. We aim to commission and publish a broad range of works including original research, case studies, pedagogical innovations, curriculum developments, program evaluations, and debate.

School Development, Teacher Training, and Digital Learning Contexts Hermann Astleitner, 2024. This book summarizes the results of a multimethod project on school development performed during the COVID-19 pandemic. It combines innovative theoretical approaches and findings as well as long-term online research activities in which student assessments delivered the bases for adaptive teacher trainings. The theoretical foundations relate to sustainable conditions of classroom and school development, an approach to personality development, and a focus on instructional coherence. Empirical findings concern the development of learning strategy use and classroom needs over time as well as a model for effective teacher education and related course evaluations. A further research area concerns advanced perspectives from digital learning research such as the effects of social media in classrooms, mixed and virtual learning materials, computer-based collaborative learning, and innovative interventions in media research. The book is aimed at researchers, teacher trainers, instructional designers, and practitioners in the field of school development as well as teacher education.

Digital Pedagogy Senad Bećirović, 2023-03-01. This book systematically approaches the topic of the relatively new field of digital pedagogy and provides valuable insights for teachers and students, education policymakers, leaders in education, and others whose professional engagement is related to education in modern society. It discusses topics including what digital pedagogy involves as well as its main characteristics and significance for the future of education, the impact of the coronavirus pandemic on the teaching and learning process, digital literacy and digital citizenship, development of digital competencies of teachers, and the reasons for and challenges of the digital transformation of education systems. The findings presented in this book help education policymakers to adopt effective strategies for digitalization of educational institutions. Furthermore, this book enables experts involved in the development and improvement of curricula to respond well to modern challenges and to adapt them to the modern needs of students, society, and scientific fields. This book also serves as a useful resource for pre-service and in-service teachers in their development of digital competencies.
