HC 401 - Managing the Care of People with Long-Term Conditions Great Britain: Parliament: House of Commons: Health Committee, 2014-07-03 15 million NHS patients in England with long term conditions such as diabetes arthritis and asthma account for 70% of the annual

expenditure of the NHS in England One projection estimating that the bill for treatment of long term conditions will require the NHS to find 4 billion more each year by 2016 Increasingly patients do not have a single long term condition but live with two or more conditions complicating treatment and adding to its cost The Committee strongly supports the development of individual care planning for people with long term conditions based on the principles successfully demonstrated in the NHS House of Care programme Care planning approaches will involve GPs community health services and specialists sitting down with the patient to draw up a personalised plan for the care required which includes the support needed to help the patient manage his or her own condition The challenge though of introducing personalised care planning for 15 million people is substantial The Committee looked at the prevailing view that services to treat long term conditions should be moved out of hospitals and into primary and community care To provide effective care for these conditions services have to be maintained across all settings from support in the home through to acute specialist care and many conditions will continue to require specialist services delivered in hospital Effective management of long term conditions also requires collaboration with other government providers such as housing and transport services

Sustainable Energy Solutions in Agriculture Jochen Bundschuh,Guangnan Chen,2014-03-07 Sustainability in agriculture and associated primary industries which are both energy intensive is crucial for the development of any country Increasing scarcity and resulting high fossil fuel prices combined with the need to significantly reduce greenhouse gas emissions make the improvement of energy efficient farming and increased use of rene *Making Money Work* Asian Development Bank,2015-07-01 The new sustainable development agenda is expected to touch every country person and activity Therefore shouldn t every dollar count toward achieving it Asia and the

Pacific home to more than half of humanity has the money to improve the lives of all its people and protect the planet in fair and durable ways However funds are in many hands invested elsewhere or used for various purposes It is time to move beyond this fragmentation and align finance behind sustainable development recognizing that while capital will be key so will the capacity to apply and attract it effectively This report explores some of the ways forward It highlights not just the need to inject more money into investments that contribute to sustainable development but also the need to attract funds toward them to finance human needs infrastructure and cross border public goods The report spans public and private options in their distinct roles and in combination An eight point agenda suggests how key constituents can do their parts Working together they can make money work for development where benefits are not only more equitably shared but will last for generations to come

Land Solutions for Climate Displacement Scott Leckie, 2014-05-23 The threat of climate displacement looms large over a growing number of countries Based on the more than six years of work by Displacement Solutions in ten climate affected countries academic work on displacement and climate adaptation and the country level efforts of civil society groups in several frontline countries this report explores the key contention that land will be at the core of any major strategy aimed at preventing and resolving climate displacement This innovative and timely volume coordinated and edited by the Founder of Displacement Solutions Scott Leckie examines a range of legal policy and practical issues relating to the role of land in actively addressing the displacement consequences of climate change It reveals the inevitable truth that climate displacement is already underway and being tackled in countries such as Bangladesh Kiribati Papua New Guinea Solomon Islands Tuvalu and the United States and proposes a series of possible land solution tools that can be employed to protect the rights of people and communities everywhere should they be forced to flee the places they call home

Discipline Problems Tadashi Dozono, 2024-05-07 Angel a Black tenth grader at a New York City public school self identifies as a nerd and likes to learn But she s troubled that her history classes leave out events like the genocide and dispossession of Indigenous people in the Americas presenting a sugar coated image of the United States that is at odds with her everyday experience The history I learned in school is simpler she says The world I live in is a lot more complex Angel like every student interviewed in Discipline Problems has been identified by teachers as a troublemaker a student whose behavior disrupts classroom norms and interferes with instruction But her critiques of the curriculum she s taught speak to her curiosity and insight crucial foundations for understanding history Like many students who have been marginalized by systemic racism in American schools she exposes the shortcomings of her classrooms academic environments by challenging both the content and the methods of her education All too often these challenges are framed as troublemaking and the students are disciplined for acting out instead of being rewarded for their intellectual engagement Tadashi Dozono a professor of education and former high school social studies teacher takes seriously the often overlooked critiques that students of color who get labeled as troublemakers direct toward their high school history curriculum He reinterprets

troublemaking usually cast as a behavioral deficit as an intellectual asset and form of reasoning that challenges the disciplining reason of classrooms where whiteness is valued over the histories and knowledge of people of color Dozono shows how what are traditionally framed as discipline problems can be seen through a different lens as responses to educational practices that marginalize non white students Discipline Problems reveals how students of color seek out alternate avenues for understanding their world and imagines a pedagogy that champions the curiosity intellect and knowledge of marginalized learners

No Simple Solutions Susan J. Popkin, 2016-10-07 In this book Sue Popkin tells the story of how an ambitious and risky social experiment affected the lives of the people it was ultimately intended to benefit the residents who had suffered through the worst days of crime decay and rampant mismanagement of the Chicago Housing Authority CHA and now had to face losing the only home many of them had known The stories Popkin tells in this book offer important lessons not only for Chicago but for the many other American cities still grappling with the legacy of racial segregation and failed federal housing policies making this book a vital resource for city planners and managers urban development professionals and anti poverty activists
