The Castration of Oedipus Joseph C. Smith, Carla J. Ferstman, 1996-03 The intellectual movements of psychoanalysis postmodernism and feminism have redefined the ways in which we think about human experience And yet an integration of these movements has been elusive if not impossible In this landmark book J C Smith and Carla J Ferstman combine these disparate traditions to create a provocative unified and tightly woven perspective that transcends the misogyny implicit in much of Freudian psychoanalytic theory The dialectics of domination and submission are central to Smith and Ferstman s argument Men and women they insist must avoid the temptation to fetishize equality and recognize the roles of domination and submission in the human psyche or in Nietzsche s terms the Will to Power They argue that the unification of psychoanalysis postmodernism and feminism leads us to a shocking conclusion that women and men cannot move beyond the suffering which so haunts the human condition unless heterosexual men surrender the power that is causing their misery and affirm life by joyfully accepting domination by women And women conversely must reaffirm their power by rejecting Oedipal genderization and embracing a liberating matriarchal consciousness and a matrilineal sexuality A work of tremendous insight and extraordinary intellectual energy The Castration of Oedipus will provoke strong reactions in all readers regardless of ideology

Sexuality and Its Discontents Jeffrey Weeks, 2002-05-03 Few topics evoke so much anxiety and pleasure pain and hope discussion and silence as sexuality Throughout the Christian era it has been a major moral preoccupation Since the eighteenth century it has also been the focus of scientific exploration and political activity But despite this obsessive concern we are still as baffled as our predecessors about the true meaning of sex In this book Jeffrey Weeks unravels the dense web of historical theoretical and political forces that have culminated in the contemporary crisis of sexual meanings and values The book begins with a powerful evocation of our present discontents and their potent signs the rise of the New Right the retreat of progressive forces and a wave of moral panics around sex It argues that this crisis is rooted in a tradition which has ascribed an inflated importance to sexuality whilst claiming a privileged access to truth The author then examines radical debates of recent years and asks whether they contain the potentiality for taking us beyond the existing boundaries of sexuality From this analysis emerges a controversial radical pluralist approach to sexuality built on an acceptance of diversity and choice By linking our present discontents to a clear understanding of the past Jeffrey Weeks presents a rational optimistic and challenging vision of a realizable future

Lloyd Morgan,2018-01-16 In the summer of 1910 a symposium on the subject of Instinct and Intelligence was held in London at a joint meeting of the Aristotelian and British Psychological Societies and of the Mind association Considerable interest in the discussion was shown both in the room in which we met and beyond its walls The papers then taken as read and subsequently published in the *British Journal of Psychology* disclose not a little divergence in the sense in which the terms instinctive and intelligent are used an underlying divergence in the principles on which the proffered interpretations are based and indications more or less clear of yet deeper seated differences of philosophical foundation **The Athenaeum** ,1856 **A Subtle and Mysterious Machine** Emily Booth,2006-01-20 Walter Charleton is an intriguing character he flits

Subjectivity In-Between Times Chenyang Wang, 2019-09-19 This book is the first to systematically investigate how the notion of time is conceptualised in Jacques Lacan's work Through a careful examination of Lacan's various presentations of time Chenyang Wang argues that this notion is key to a comprehension of Lacan's psychoanalytic thinking and in particular to the way in which he theorises subjectivity This book demonstrates that time is approached by Lacan not only as consciously experienced but also as pre-reflectively embodied and symbolically generated In an analysis that begins with Lacan's Logical Time essay Chenyang Wang articulates three temporal registers that correspond to Lacan's Real Symbolic Imaginary triad and also demonstrates how Lacan's elaboration of other major themes including consciousness body language desire and sexuality is informed by his original perspectives on time Filling a significant gap in contemporary Lacanian studies this book will provide essential reading for students and scholars of psychoanalytic theory continental philosophy and critical theory
