Animation and Advertising Malcolm Cook, Kirsten Moana Thompson, 2019-12-17 Throughout its history animation has been fundamentally shaped by its application to promotion and marketing with animation playing a vital role in advertising history In individual case study chapters this book addresses among others the role of promotion and advertising for anime Disney MTV Lotte Reiniger Pixar and George Pal and highlights American Indian Japanese and European examples This collection reviews the history of famous animation studios and artists and rediscovers overlooked ones It situates animated advertising within the context of a diverse intermedial and multi platform media environment influenced by print radio and digital practices and expanding beyond cinema and television screens into the workplace theme park trade expo and urban environment It reveals the part that animation has played in shaping our consumption of particular brands and commodities and assesses the ways in which animated advertising has both changed and been changed by the technologies and media that supported it including digital production and distribution in the present day Challenging the traditional privileging of art or entertainment over commercial animation Animation and Advertising establishes a new and rich field of research and raises many new questions concerning particular animation and media histories and our methods for researching them

The US Sports Film: A Genre of American Dream Time Danny Gronmaier, 2022-12-05 Sports and film are media that create time They are temporal not only in the sense that they are defined and regulated by certain temporalities as a result of processes of social negotiation but also in the sense of modulating and intervening in these processes in the first place They are determined by multiple temporalities referring to and aligning along perceptual corporeality but at the same time they also produce time through and along temporalities of bodily expression and perception Thus as much as we perceive and understand sports and film by means of our culturally coded conceptions of time this comprehension is itself already the product of these media s fabrication and modulation of certain audiovisual imaginations of time This book examines these imaginations with regard to US team sports feature films understanding the former as the latter s constitutive conflict which makes these films graspable as a genre in the first place By addressing temporality as an ever new crystallization of a heroic past and an unattainable future in a saturated yet volatile present this conflict connects substantially to the American Dream as an idea of community building historicity Departing from a non taxonomic approach in genre theory and such philosophical recognition of the American Dream as less an ideological narrative but more a social and socially effective imaginary embedded in an audiovisual discourse of time this book demonstrates the interrelation of sports cinema and American subjectivization along close readings of the poetics of affect of five exemplary sports films FIELD

Creative Economies, Creative Cities Lily Kong,Justin O'Connor,2009-05-19 Justin O Connor and Lily Kong The cultural and creative industries have become increasingly prominent in many policy agendas in recent years Not only have governments identified the growing consumer potential for cultural creative industry

products in the home market they have also seen the creative industry agenda as central to the growth of external markets. This agenda stresses creativity, innovation, small business growth, and access to global markets, all central to a wider agenda of moving from cheap manufacture towards high value added products and services. The increasing importance of cultural and creative industries in national and city policy agendas is evident in Hong Kong, Singapore, Taiwan, South Korea, Beijing, Shanghai, and Guangzhou, Australia, and New Zealand, and in more nascent ways in cities such as Chongqing and Wuhan. Much of the thinking in these cities/countries has derived from the European and North American policy landscape. Policy debate in Europe and North America has been marked by ambiguities and tensions around the connections between cultural and economic policy, which the creative industry agenda posits. These become more marked because the key drivers of the creative economy are the larger metropolitan areas, so that cultural and economic policy also then intersect with urban planning policy and governance.

Japanese ANIME Story Seo hyun woong, 2025-05-15

Hello, I am Seohyeon Woong, an author from the Japanese specialty bookstore MeeNii. We often try to define cultures by borders and seek identity within them. However, culture is like water flowing beyond borders, continuously influencing and being influenced by each other without staying in one place. The cultural relationship between Korea and Japan, especially through animation exchange, is a perfect example of this fluidity. The introduction of Japanese animation to Korea, starting in the 1960s, was not merely the import of foreign content. It was a cultural phenomenon that shaped the imagination of a generation, inspired creativity, and sometimes sparked social debates. While it is widely known that Korean animations like *Robot Taekwon V* were inspired by Japanese works, the depth and breadth of that influence are far more extensive than one might think. This book explores how Japanese animation has been accepted and transformed within Korean society and culture from the 1960s to the present. Through works spanning generations, from *Mazinger Z* to *Your Name*, we will uncover hidden stories of Korean popular culture. This is not just a history of animation but also a cultural history reflecting the changes and growth of Korean society. We aim to revisit Japanese animations from the black and white TV era, when parents gathered with neighborhood kids to watch cartoons, to those enjoyed by today's MZ generation. By minimizing technical jargon and complex theories, I hope to guide this journey in a language that everyone can easily understand. Let us begin the journey to discover another aspect of Korean culture through the lens of Japanese animation. Thank you.
