Cinema of Disorientation Dominic Lash, 2020-07-06 Precisely perhaps because they are so immediately absorbing narrative films can also be profoundly confusing and disorienting This fascinating book neither proposes foolproof methods for avoiding confusion nor does it suggest that disorientation is always a virtue Instead it argues that the best way to come to terms with our confusion is to look closely at exactly what is confusing us and why At the heart of the book are original close readings of four important recent films David Lynch's INLAND EMPIRE 2006 Leos Carax's Holy Motors 2012 Pedro Costa's Colossal Youth 2006 and Jean Luc Godard's Goodbye to Language 2014 Clearly written but critically and theoretically bold The Cinema of Disorientation Inviting Confusions explores both how we get or fail to get our bearings with respect to a film and what we might discover by and while doing so
