Global Antisemitism: A Crisis of Modernity Charles Asher Small, 2013-11-28. This volume contains a selection of essays based on papers presented at a conference organized at Yale University and hosted by the Yale Initiative for the Interdisciplinary Study of Antisemitism (YIISA) and the International Association for the Study of Antisemitism (IASA) entitled *Global Antisemitism: A Crisis of Modernity*. The essays are written by scholars from a wide array of disciplines, intellectual backgrounds and perspectives and address the conference's two inter-related areas of focus: global antisemitism and the crisis of modernity currently affecting the core elements of Western society and civilization. Rather than treating antisemitism merely as an historical phenomenon, the authors place it squarely in the contemporary context. As a result, this volume also provides important insights into the ideologies, processes and developments that give rise to prejudice in the contemporary global context. This thought-provoking collection will be of interest to students and scholars of antisemitism and discrimination as well as to scholars and readers from other fields.
