Handbook of Asian Criminology Jianhong Liu, Bill Heberton, Susyan Jou, 2012-12-09 The *Handbook of Asian Criminology* aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general and the Asian region in particular Contextualization is a key theme in this book The role of context is often underemphasized in international criminology so the *Handbook of Asian Criminology's* premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work Attention will be given to country and region specific attitudes towards crime and punishment

Environmental performance of pig supply chains: Guidelines for assessment (Version 1) Food and Agriculture Organization of the United Nations, 2018-02-23 This is a living document produced by the Livestock Environmental and Assessment Performance LEAP Partnership The document presents a methodology and provides guidance for the assessment of the environmental performance of pig supply chains It provides users guidance on how to apply the life cycle assessment approach to pig supply chains Demand for livestock products is projected to grow 1.3 percent per year until 2050 driven by global population growth and increasing wealth and urbanization This projected growth places significant pressure on the livestock sector to perform in a more sustainable way Currently many different methods are used to assess the environmental impacts and performance of livestock products This causes confusion and makes it difficult to compare results and set priorities for continuing improvement The intention of this document is to provide an overview assessment of existing studies and associated methods that have used life cycle assessment for the evaluation of pig supply chains

Noah's Ravens James O. Farlow,2018-10-08 How can the tracks of dinosaurs best be interpreted and used to reconstruct them In many Mesozoic sedimentary rock formations fossilized footprints of bipedal three toed tridactyl dinosaurs are preserved in huge numbers often with few or no skeletons Such tracks sometimes provide the only clues to the former presence of dinosaurs but their interpretation can be challenging How different in size and shape can footprints be and yet have been made by the same kind of dinosaur How similar can they be and yet have been made by different kinds of dinosaurs To what extent can tridactyl dinosaur footprints serve as proxies for the biodiversity of their makers Profusely illustrated and meticulously researched Noah s Ravens quantitatively explores a variety of approaches to interpreting the tracks carefully examining within species and across species variability in foot and footprint shape in nonavian dinosaurs and their close living relatives The results help decipher one of the world s most important assemblages of fossil dinosaur tracks found in sedimentary rocks deposited in ancient rift valleys of eastern North America Those often beautifully preserved tracks were among the first studied by paleontologists and they were initially interpreted as having been made by big birds one of which was jokingly identified as Noah s legendary raven Dinosaurs and Other Extinct Saurians Richard Moody,2010 The discovery of dinosaurs and other large extinct saurians a term under which the Victorians commonly lumped ichthyosaurs plesiosaurs pterosaurs and their kin makes exciting reading and has caught the attention of palaeontologists historians of science and the general public alike The papers in this collection go beyond the familiar tales about famous fossil hunters and focus on relatively little known episodes in the discovery and interpretation from both a scientific and an artistic point of view of dinosaurs and other inhabitants of the Mesozoic world They cover a long time span

from the beginnings of modern scientific palaeontology in the 1700s to the present and deal with many parts of the world from the Yorkshire coast to Central India from Bavaria to the Sahara The characters in these stories include professional palaeontologists and geologists some of them well known others quite obscure explorers amateur fossil collectors and artists linked together by their interest in Mesozoic creatures *Ecological Footprint of the Modern Economy and the Ways to Reduce It* Bruno S. Sergi,Elena G. Popkova,Anna A. Ostrovskaya,Alexander A. Chursin,Yulia V. Ragulina,2024-02-26 This book is devoted to the systems rethinking of the role of the leading digital technologies and circular innovations to reduce the environmental footprint of the modern economy The target audience of this book consists of scientists who explore environmental economics energy economics and sustainable development In this book they will find a consistent take on the impact of the economy on the environment from the perspective of a new scientific concept the environmental footprint of the economy described through the lens of the UN SDGs This book is also useful for public agencies of energy and environmental economics and environmentally responsible enterprises In this book they will find applied recommendations on improving the efficiency of the use of high technologies and responsible innovations to reduce the environmental footprint of the modern economy The book provides numerous real world examples case studies and recommendations on unlocking the environmental potential of high technologies Big Data Ubiquitous Computing UC Robotics Artificial Intelligence AI and the Internet of Things IoT and responsible innovations ESG investments environmental taxation green jobs which allow reaching net zero emission and building a carbon neutral circular economy The interest in this book is also attributable to the fact that it takes into account the specifics of developed and less developed countries The book puts more focus on the real life and case experience of Central Asia and the Eurasian Economic Union EAEU Scientific and Technical Aerospace Reports ,1982 *Carbon Footprints as Cultural-Ecological Metaphors* Anita Girvan,2017-10-10 Through an examination of carbon footprint metaphors this books demonstrates the ways in which climate change and other ecological issues are culturally and materially constituted through metaphor The carbon footprint metaphor has achieved a ubiquitous presence in Anglo North American public contexts since the turn of the millennium yet this metaphor remains under examined as a crucial mediator of political responses to the urgent crisis of climate change Existing books and articles on the carbon footprint typically treat this metaphor as a quantifying metric with little attention to the shifting mediations and practices of the carbon footprint as a metaphor This gap echoes a wider gap in understanding metaphors as key figures in mediating more than human relations at a time when such relations profoundly matter As a timely intervention this book addresses this gap by using insights from environmental humanities and political ecology to discuss carbon footprint metaphors in popular and public texts This book will be of great interest to researchers and students of environmental humanities political ecology environmental communication and metaphor studies **Wildlife Forensic Investigation** John E.
