Clinical Anatomy of the Lumbar Spine and Sacrum Nikolai Bogduk, 2005-01-01 Bogduk aims to provide a foundation of knowledge upon which an understanding of the various treatment and therapy techniques of the different specialities involved can be built This edition includes discussion of the sacrum and sacro iliac joint Research in Anatomy Hosam Eldeen Elsadig Gasmalla, 2025-08-01 Research in Anatomy A Comprehensive Guide in Anatomical Sciences and Education aims to provide a comprehensive overview of contemporary anatomical research methods It fills a critical gap in anatomical research methodologies While many texts cover general research methods or specific topics there is a lack of comprehensive resources that encompass the various approaches in anatomical studies It serves as a valuable resource for students educators and researchers in the anatomical sciences and related disciplines The book is divided into two parts Part one is the introductory section which covers the fundamentals of anatomical research through seven chapters It starts by providing brief descriptions and examples of various research designs and offering a step by step guide on how to conduct systematic literature searches Subsequent chapters in this section compare human and animal studies in anatomical research discuss how to conduct systematic reviews cover essential aspects of data analysis and management in anatomical research outline methods for sharing anatomy research findings and highlight the vital role of cadavers in advancing anatomical knowledge and medical education Finally this section explores the methods and approaches used to study and improve anatomy education The second section explores various specialised research areas in detail It provides guidance and insights on several topics including developmental anatomy research the use of surgical observations for anatomical research and morphometric studies in anatomy Additionally it discusses the application of medical imaging tools for anatomical studies and the significance of macroscopic and microscopic examination and imaging techniques in neuroanatomical research Finally this section explores anatomical variability A research methods book that is tailored to anatomical research Presents a variety of research designs applied in anatomical research based on cadavers surgical observations medical imaging morphometric studies and microscopic studies Inspires early career anatomists to identify possible future research areas

International Anatomical Education Iain D. Keenan, Isabel Stabile, Asha Venkatesh, 2025-08-10 Anatomy is intrinsically a three dimensional and visual discipline Anatomical education is therefore primarily delivered using physical and digital three dimensional visual approaches to support student understanding of anatomy including human body donor specimens and technology enhanced learning resources The Trans European Pedagogic Anatomy Research Group TEPARG was founded in 2003 to promote scholarly research informed and evidence based approaches to the design and implementation of anatomical education TEPARG brings together enthusiastic anatomy teachers and pedagogic researchers from across Europe and beyond to share good practice and create new projects in support of anatomical education The work presented in this volume demonstrates careful consideration by the authors of several key areas within the current complex landscape of

international anatomical education This volume is presented in two subthemes with the first section concerning broad considerations of modern anatomy curricula in England Scotland Wales and Austria and the second section involving discussion of pedagogic innovations for the delivery of anatomical education to learners and to the wider public in Italy Spain Australia and the United Kingdom The work presented in this volume will have implications for anatomical educators and pedagogic researchers in the anatomical sciences who are seeking to develop their own anatomy curricula and to implement effective evidence based and research informed visualization strategies and innovations into their teaching **Key Topics**
