Duesbury, 2011-01-07 For both students and practicing counselors this book fills the gaps that exist between many current academic programs and practitioner's needs for focused training on how to better assist clients with dream interpretations Its main focus is on dreams concerning family

members and other major figures in the dreamer's life with whom he or she interacts. They will be amazed and fascinated by the issues, emotions, and problem-solving suggestions that are often revealed as they guide their clients' use of a personalized dream interpretation method developed by the author.
