following question Will the framing of the appropriate constitution and economic system building democratic institutions and developing positive attitudes towards them take place among Albanians through ongoing familiarization Accordingly the failure of the 1994 referendum on the new constitution the overnight changes of the 1998 constitution in 2008 and the permanent stagnant economy strengthened the belief among Albanians that a democratic constitution and a functioning market economy cannot flourish if they are not rooted in an environment pervaded by a democratic culture Furthermore if democracy has to persist and become consolidated it is not enough just to skillfully engineer institutions without taking into account the effect of political culture Ultimately this book attempts to show that the efforts made by the Western countries to export democracy to Albania and to promote consolidation through political tools generalized from other alien realities without taking into consideration Albania's internal political culture values have turned out to be in the long run a political abortion On the other hand this book should be construed neither as a critique of democracy nor as a defense of it it is also not a balance sheet of the success or failure of democracy and democratization processes in Albania but rather it aims at presenting an alternative approach to democratic consolidation through Albania's authentic cultural heritage
