

The Cold War Heats Up

1. As you read the passage, fill in the information you discover about the Soviet-American agreement below.

	What the Soviets Wanted	What the Americans Wanted
1. Would it make any sense to build space programs and rockets?	That U.S. support them economically (training, fuel, etc.)	None
2. Would anyone benefit from the rockets and satellites they could build?	They would surely produce satellites that were better. They would improve delivery of aid.	They were worried about the loss of U.S. technology when John F. Kennedy became president. They planned to use the rocket to deliver Chinese missiles.
3. Would anyone disagree with this?	Not Eisenhower.	Others might be worried about our independence and our technology.
4. Would what the Americans asked make sense for the Soviet satellite?	Yes. The government could no longer afford to maintain satellites.	Yes. American satellites were important and would not lose a technological edge.

2. Suppose the agreement simply set up the program, without

these other agreements. What would

happen? Would the satellites grow better?

Without America, U.S. satellites like Cuba would

lose much of their ability to get money and technology.
