exercise types and modeling projects keep the learning fresh and motivating This text continues Young s tradition of fostering a love for succeeding in mathematics *Precalculus* Cynthia Y. Young,2017-11-07 Precalculus was developed to create a program that seamlessly align with how teachers teach and fully supports student learning Cynthia Young s goal was to create an intuitive supportive product for students without sacrificing the rigor needed for true conceptual understanding and preparation for Calculus Precalculus helps bridge the gap between in class work and homework by mirroring the instructor voice outside the classroom through pedagogical features *The End of Public Schools* David W.

Hursh,2015-10-16 The End of Public Schools analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public **Young, Precalculus, Third Edition** Cynthia Y.

Young,2021-06-21 Precalculus was developed to create a program that seamlessly aligns with how teachers teach and fully supports student learning Cynthia Young s goal was to create an intuitive supportive product for students without sacrificing the rigor needed for true conceptual understanding and preparation for calculus Precalculus helps bridge the gap between in class work and homework by mirroring the instructor voice outside the classroom through pedagogical features Publisher

Financial Crisis Management and Democracy Bettina De Souza Guilherme,Christian Ghymers,Stephany

Griffith-Jones,Andrea Ribeiro Hoffmann,2020-12-09 This open access book discusses financial crisis management and policy in Europe and Latin America with a special focus on equity and democracy Based on a three year research project by the Jean Monnet Network this volume takes an interdisciplinary comparative approach analyzing both the role and impact of the EU and regional organizations in Latin America on crisis management as well as the consequences of crisis on the process of European integration and on Latin America s regionalism The book begins with a theoretical introduction exploring the effects of the paradigm change on economic policies in Europe and in Latin America and analyzing key systemic aspects of the unsustainability of the present economic system explaining the global crises and their interconnections The following chapters are divided into sections The second section explores aspects of regional governance and how the economic and financial crises were managed on a macro level in Europe and Latin America The third and fourth sections use case studies to drill down to the impact of the crises at the national and regional levels including the emergence of political polarization and rise in populism in both areas The last section presents proposals for reform including the transition from finance capitalism to a sustainable real capitalism in both regions and at the inter regional level of EU LAC relations The volume

concludes with an epilogue on financial crises regionalism and domestic adjustment by Loukas Tsoukalis President of the Hellenic Foundation for European and Foreign Policy ELIAMEP Written by an international network of academics practitioners and policy advisors this volume will be of interest to researchers and students interested in macroeconomics comparative regionalism democracy and financial crisis management as well as politicians policy advisors and members of national and regional organizations in the EU and Latin America Productivity Puzzles Across Europe Philippe Askenazy,Lutz Bellmann,Alex Bryson,Eva Moreno Galbis,2016-09-08 The 2008 financial crisis put an end to an era of sustained economic growth in Europe The size of the shock differed across European countries and affected economies in different ways Yet despite this heterogeneity most European countries suffered a prolonged period of economic slowdown which raised concerns about the risk of a secular stagnation in Europe This book focuses on labour productivity in Europe one of the main drivers of growth and prosperity Although productivity trends became the focus of policy interest in the immediate aftermath of the recession in the UK productivity puzzles received much less attention in the rest of Europe These puzzles which are apparent to greater or lesser extents in most European economies centre on the marked decline in labour productivity growth which occurred with the on set of recession They are puzzles because in neo classical economics firms respond to demand shocks by laying off workers thus maintaining labour productivity and limiting growth in unit labour costs Yet this didn t happen in this recession at least not to the same extent as in previous recessions except in Spain This book brings together contributions from leading European economists who analyse production models and macroeconomic policies with specific focus on European countries that represent around 60% of the EU GDP Chapters on France Germany the UK and Spain provide new evidences at the firm workplace level and stress the role of transitory labour market mechanisms

The Oxford Handbook of Positive Psychology C. R. Snyder,Shane J. Lopez,Lisa M. Edwards,Susana C. with other middle income countries South Africa is a country with a unique economic history and distinctive economic features It is a regional economic powerhouse that plays a significant role not only in southern Africa and in the continent but also as a member of BRICS However there has been a lack of structural transformation and weak economic growth and South Africa faces the profound triple challenges of poverty inequality and unemployment Any meaningful debate about economic policies to address these challenges needs to be informed by a deep understanding of historical developments robust empirical evidence and rigorous analysis of South Africa s complex economic landscape This volume seeks to provide a wide ranging set of original detailed and state of the art analytical perspectives that contribute to scientific knowledge as well as to well informed and productive discourse on the South African economy While concentrating on the more recent economic issues facing South Africa the handbook also provides historical and political context It offers an in depth examination of strategic issues in the country s key economic sectors and brings together diverse analytical perspectives

Ending Africa's Energy Deficit and the Law Yinka Omorogbe, Ada Ordor, 2018-02-22 With the inclusion of access to energy in the sustainable development goals the role of energy to human existence was finally recognized Yet in Africa this achievement is far from realized Omorogbe and Ordor bring together experts in their fields to ask what is stalling progress examining problems from institutions catering to vested interests at the continent s expense to a need to develop vigorous financial and fiscal frameworks The ramifications and complications of energy law are labyrinthine this volume discusses how energy deficits can burden disabled people women and children in excess of their more fortunate counterparts as well as considering environmental issues including the delicate balance between the necessity of water for drinking and cleaning and the use of water in industrial processes A pivotal work of scholarship the book poses pressing questions for energy law and international human rights

On Unemployment Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers *On Unemployment* explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book s various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across

business economics and finance as well as politics philosophy and sociology Climate Change 2022 - Mitigation of Climate Change Intergovernmental Panel on Climate Change (IPCC), 2023-08-17 This Working Group III contribution to the IPCC Sixth Assessment Report provides a comprehensive and transparent assessment of the literature on climate change mitigation The report assesses progress in climate change mitigation options for reducing emissions and enhancing sinks With greenhouse gas emissions at the highest levels in human history this report provides options to achieve net zero as pledged by many countries The report highlights for the first time the social and demand side aspects of climate mitigation and assesses the literature on human behaviour lifestyle and culture and its implications for mitigation action It brings a wide range of disciplines notably from the social sciences within the scope of the assessment IPCC reports are a trusted source for decision makers policymakers and stakeholders at all levels international regional national local and in all branches government businesses NGOs Available as Open Access on Cambridge Core
