you want to take to market all the suppliers you'll deal with and every customer you'll ever see To be successful you need to
understand them See them in detail in ways not possible with other methods Hypernomics Using Hidden Dimensions to Solve
Unseen Problems discovers that markets behave according to previously unknown laws set by the buyers and sellers within
them It reveals those rules and how to detect describe and deploy them to your advantage It doesn't change economics so
much as reveal it It's like a microscope looking at pond water a telescope tilted to the sky sonar scanning the bottom of the
ocean Hypernomics lets you see into markets in ways you can't with the unaided eye Sailors never navigate without a map
You shouldn't either since your ship could wind up on the rocks Hypernomics gives you the means to create market maps
that show you where they have openings and how to fill them by giving customers what they want don't have and can afford
It finds their thresholds and limits and responses to every possible feature in any product you can offer The interactions
