Accelerated Christian Education:

The Strengths and Weaknesses of the A.C.E. Program Accelerated Christian Education, Inc. (Lewisville, Tex.), Donald R. Howard, 1985 Christian Education the Forefront of Reformation, 1984 *Catalog of Copyright Entries. Third Series* Library of Congress. Copyright Office, 1976 **An Evaluation of Accelerated Christian Education** Neil J. Bramble, 1984 God's Schools Melinda Bollar Wagner, 1990 Melinda Wagner goes beyond this stereotype to portray the way these schools foster American popular culture and professional education culture as well as Christian culture In her participant observation study of a variety of Christian schools sponsored by fundamentalist evangelical new charismatic Holiness and Pentecostal Christians Wagner describes and interprets how such compromises are made International Handbook of Protestant Education William Jeynes, David W. Robinson, 2012-01-11 Since their earliest days institutions providing a Protestant education have always been respected and sought after for their rigor and relative freedom from dogma and despite today's secularism and plurality they remain so This international handbook is the ultimate companion to protestant schooling worldwide Its 39 chapters form the most comprehensive and wide ranging treatment of the subject yet available addressing Protestant education on all six inhabited continents and featuring the perspectives of leading authorities and public figures The contributions cover in detail not only the facts and features of Protestant schooling in sundry nations but also integrate a range of themes common to them all themes so vital that they are of central concern to Christians around the world and of whatever denomination Some of these topics are school choice globalization Bible pedagogy and character education the fine arts parental involvement and the rise of Christianity in previously inaccessible locations such as China The handbook's stellar list of authors is a Who's Who of authorities on the subject and includes a renowned American evangelical a former historian of the US House of Representatives and White House consultants responsible for framing legislation The many contributors from outside the USA are leading academics conducting seminal research on numerous topics in the field Both exhaustive and authoritative The International Handbook of Protestant Education will be an invaluable asset to educators ministers parents policy makers political leaders of any denomination or none *Miseducation* A. J. Angulo, 2016-04-01 A provocative collection that explores how intentional ignorance seeps into formal education Honorable Mention for the PROSE Education Theory Award of the Association of American Publishers Ignorance or the study of ignorance is having a moment Ignorance plays a powerful role in shaping public opinion channeling our politics and even directing scholarly research The first collection of essays to grapple with the historical interplay between education and ignorance *Miseducation* finds ignorance and its social production through naiveté passivity and active agency at the center of many pivotal historical developments Ignorance allowed Americans to maintain the institution of slavery Nazis to promote ideas of race that fomented genocide in the 1930s and tobacco companies to downplay the dangers of cigarettes Today ignorance enables some to deny the fossil record and others to ignore climate science A J Angulo brings together seventeen

experts from across the scholarly spectrum to explore how intentional ignorance seeps into formal education Each chapter identifies education as a critical site for advancing our still limited understanding of what exactly ignorance is where it comes from and how it is diffused maintained and regulated in society Miseducation also challenges the notion that schools are ideally unimpeachable sites of knowledge production access and equity By investigating how laws myths national aspirations and global relations have recast and at times distorted the key purposes of education this pathbreaking book sheds light on the role of ignorance in shaping ideas public opinion and policy *Accelerated Christian Education* Saskatchewan. Department of Education. Regional Services Division, Saskatchewan. Department of Education. Program Evaluation and Student Services Branch, 1983 *Accelerated Christian Education* Helen Burley, 1986 *Facts about Accelerated Christian Education*, 1983 Religious Schools V. Children's Rights James G. Dwyer, 2001 Despair over the reported inadequacies of public education leads many people to consider religious schools as an alternative James G Dwyer demonstrates however that religious schooling is almost completely unregulated and that common pedagogical practices in fundamentalist Christian and Catholic schools may be damaging to children He presents evidence of excessive restriction of children's basic liberties stifling of intellectual development the instilling of dogmatic and intolerant attitudes as well as the infliction of psychological and emotional harms including excessive guilt and repression and especially among girls diminished self esteem Courts legal and political theorists and the public typically argue that families and religious communities are entitled to raise their children as they see fit and that the state must remain neutral on religious matters Dwyer proposes an alternative framework for state policy regarding religious schooling and other child rearing practices urging that the focus always be on what is best from a secular perspective for the affected children He argues that the children who attend religious schools have a right to adequate state regulation and oversight of their education States are obligated to ensure that such schools do not engage in harmful practices and that they provide their students with the training necessary for pursuit of a broad range of careers and for full citizenship in a pluralistic democratic society *The ABC's of A.C.E.*, 1982 *The Dissenting Tradition in American Education* James C. Carper, Thomas C. Hunt, 2007 During the mid nineteenth century Americans created the functional equivalent of earlier state religious establishments Supported by mandatory taxation purportedly inclusive and vested with messianic promise public schooling like the earlier established churches was touted as a bulwark of the Republic and as an essential agent of moral and civic virtue As was the case with dissenters from early American established churches some citizens and religious minorities have dissented from the public school system what historian Sidney Mead calls the country's established church They have objected to the orthodoxy of the public school compulsory taxation and attempts to abolish their schools or bring them into conformity with the state school paradigm *The Dissenting Tradition in American Education* recounts episodes of Catholic and Protestant nonconformity since the inception of public education including the creation of Catholic and Protestant schools homeschooling conflicts regarding regulation of nonconforming schools and

controversy about the propositions of knowledge and dispositions of belief and value sanctioned by the state school. Such dissent suggests that Americans consider disestablishing the public school and ponder means of education more suited to their confessional pluralism and commitments to freedom of conscience, parental liberty and educational justice. **Systems of Indoctrination** Jenna Scaramanga, 2017. **Wisdom's Passing** Steven Porter, 1989. First Published in 1989. *Wisdom's Passing* is at once a history commentary and blueprint for positive change unlike any other book on education in the last quarter century. The author offers his recommendations to seek to provide an evolutionary reform rather than the typical new method that will solve problems with the American Education system. **Creationism USA** Adam Laats, 2020-10-05. *Creationism USA* reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution, education and creationism. Adam Laats argues that Americans do not have deep fundamental disagreements about evolution but that they do have significant disagreements about creationism. *Creationism USA* both explains the current state of America's battles over creationism and offers a nuanced yet straight forward prescription to solve them. **Vouchers Within Reason** James G. Dwyer, 2002. Dwyer makes the case that state funding of religious and other private schools is not only permissible but mandatory as a moral and constitutional right of the children already in private schools. In *Vouchers within reason* he also demonstrates the necessity of attaching to that funding robust standards for the content and nature of instruction and for treatment of students. These are just the sort of regulatory strings that most current supporters of vouchers fear. In the author's view vouchers represent an opportunity for states to accomplish what they have been unable to do in the past namely to bring academic accountability to religious schools many of which fail to provide a good secular education. He sees voucher programs that are now in place as morally irresponsible and clearly unconstitutional however because they require almost nothing of recipient schools in return for the funding.

Systems of Indoctrination Jonathan Theodore Scaramanga, 2017. **Systems of Indoctrination** Jonny Scaramanga, 2017. **Private Education** Geoffrey Walford, 2005-11-24. Private schools are central to the reproduction of social inequality. For example whilst in the UK providing only about seven per cent of the school population about half of the undergraduates at Oxford and Cambridge still come from the private sector. Private schools have long been associated with privilege and elitism. While this traditional elitist aspect to the private sector is still central the private school sector is actually far more diverse than is usually acknowledged. It now includes many small schools and faith based schools that may not offer the traditional advantages of the private sector but which provide a particular environment deemed desirable by parents. In spite of their educational and social importance there has been very little academic research and writing on private schools. The proposed book will be the culmination of Professor Walford's research into private schools over the past twenty years.
