Each report begins with an overview of the region's mineral industries during the year. It continues with individual country chapters that examine the mining, refining, processing, and use of minerals in each country of the region and how each country's mineral industry relates to U.S. industry. Most chapters include production tables and industry structure tables, information about Government policies and programs that affect the country's mineral industry, and an outlook section. **Minerals Yearbook** Geological Survey, Interior Department, Mines Bureau, 2019-02-15 This volume covering metals and minerals contains chapters on approximately 90 commodities. In addition, this volume has chapters on mining and quarrying trends and on statistical surveying methods used by Minerals Information plus a statistical summary. Yesterday, Today, and Tomorrow Roslyn Arlin Mickelson, Stephen Samuel Smith, Amy Hawn Nelson, 2017-11-14 *Yesterday, Today, and Tomorrow* provides a compelling analysis of the forces and choices that have shaped the trend toward the resegregation of public schools. By assembling a wide range of contributors—historians, sociologists, economists, and education scholars—the editors provide a comprehensive view of a community's experience with desegregation and economic development. Here we see resegregation through the lens of Charlotte, North Carolina, once a national model of successful desegregation and home of the landmark Swann desegregation case, which gave rise to school busing. This book recounts the last forty years of Charlotte's desegregation and resegregation, putting education reform in political and economic context. Within a decade of the Swann case, the district had developed one of the nation's most successful desegregation plans, measured by racial balance and improved academic outcomes for both black and white students. However, beginning in the 1990s, this plan was gradually dismantled. Today, the level of resegregation in Charlotte has almost returned to what it was prior to 1971. At the core of Charlotte's story is the relationship between social structure and human agency, with an emphasis on how yesterday's decisions and actions define today's choices. Asia and Pacific Dept, 2015-11-10

This paper discusses Bangladesh's Fifth and Sixth Reviews Under the Extended Credit Facility Arrangement. The current ECF arrangement approved in April 2012 is drawing to a close. Over its three years, macroeconomic stability has been buttressed, growth is strong, inflation has eased, the public debt to GDP ratio has remained stable, and foreign reserves remain adequate. Progress on revenue mobilization, however, has been weak. Political uncertainty remains a key risk to the outlook. All performance criteria for the combined reviews have been met, all prior actions have been completed, and macroeconomic stability has been maintained. The IMF staff recommends completion of the combined reviews.
