Chinese Urban Transformation Chen Yuanzhi, Alan Hudson, He Lisheng, 2019-06-27 Now an established global force China has experienced a sustained period of staggering economic growth since policy reform in the 1970s Chinese urbanisation is the most significant example of economic environmental and social change both within China and globally In recent years central government has made a concerted effort to encourage city governments to realign their priorities and achieve a balance between economic efficiency social justice and environmental protection Chinese Urban Transformation A Tale of Six Cities is a fascinating exploration of the dramatic development Chinese cities have undergone Tracing this transformation through a comprehensive analysis of social and economic change in six cities it unravels the complex relationship between policy outlook and role that urban development plays in China's view of itself including the tensions resulting from rapid social and economic change

The Secrets for Motivating, Educating, and Lifting the Spirit of African American Males Ernest H. Johnson, 2011-11-21 Unlike the media would have you believe most black males find great value in education They want to believe that they have a special gift and that they can make a difference in the world The problem is that they have ill feelings about how society has deprived them of the most qualified teachers and the best ways to be engaged in their own education As a consequence of repeatedly being marginalized criticized and put down by society and teachers they do not feel motivated to attend school or to produce outstanding academic work The Secrets for Motivating Educating and Lifting the Spirit of African American Males contains essays that center on how to help educators and parents to equip young black males with the drive necessary to craft fulfilling lives for themselves so they don't slip through the cracks in the educational system Historically we are still dealing with what happens to the image of Black people in the minds of white people A book like this helps to make certain that the information teachers provide to all students regardless of their race will help them understand that the history of this country has made generation after generation of black students see themselves as academically and socially inferior to white people Most importantly it's the teachers not just black teachers but all teachers who have to understand the power they have to change the mindset of society Changing how society thinks about Black people particularly Black males is a task teachers can truly accomplish because they have the power to create lesson plans that challenge how students think about each other For such lessons are important for changing the attitudes and beliefs of the entire community in which we live REVEREND C T VIVIAN A Pioneer of the Civil Rights Movement Author Educator and a Close Friend of Reverend Dr Martin Luther King Jr This book provides a fresh perspective for understanding the problems associated with the education of Black males As a minister I have not encountered a project that gathers the collective wisdom of a group of over 20 Black male educators who are dedicated to helping the world save young Black males When all their ideas come together they are bound to create a storm of new

thinking about how all of us can work together As a spiritual leader my role is to help young Black males understand that the same God that was in Dr King is the same God that is in them This is a difficult lesson for some Black males who have been brainwashed to see themselves as having no say about the outcome of their lives This book will help us including those in the ministry to reevaluate the thinking patterns of our boys so that we can better prepare them for the critical thinking that is required for life in the 21st century REVEREND ROBERT KILGORE Assistant Pastor at Hillside International Truth Center Atlanta GA

Sustainable and Resilient Global Practices Torben Juul Andersen,2024-07-19 The chapters presented here by global scholars fill the void in current knowledge of how to generate effective strategic adaptation in times of abrupt environmental changes generating important leads for forthcoming scholarship efforts for the benefit of business and society

The Public in Law Gregor Clunie,Haris Psarras,2016-02-24 Bringing together established academics and new researchers the chapters in this collection interrogate the operation of the public in a range of different legal illegal and alegal spaces The key question which frames the contributions is whether and in what manner the public operates as an interface between law and society allowing the interests and opinions of the population at large to be represented and reflected in legal discourse such that collectively generated imperatives may be imposed upon political and economic actors Multi disciplinary in its approach the volume reflects an understanding that there is more to the role of the public in relation to law than the conventional demarcation of the field of public law and that this relationship is open to comment from a wide range of actors

Organizing Schools for Improvement Anthony S. Bryk,Penny Bender Sebring,Elaine Allensworth,John Q. Easton,Stuart Luppescu,2010-03-15 In 1988 the Chicago public school system decentralized granting parents and communities significant resources and authority to reform their schools in dramatic ways To track the effects of this bold experiment the authors of Organizing Schools for Improvement collected a wealth of data on elementary schools in Chicago Over a seven year period they identified one hundred elementary schools that had substantially improved and one hundred that had not What did the successful schools do to accelerate student learning The authors of this illuminating book identify a comprehensive set of practices and conditions that were key factors for improvement including school leadership the professional capacity of the faculty and staff and a student centered learning climate In addition they analyze the impact of social dynamics including crime critically examining the inextricable link between schools and their communities Putting their data onto a more human scale they also chronicle the stories of two neighboring schools with very different trajectories The lessons gleaned from this groundbreaking study will be invaluable for anyone involved with urban education

Preventing Regulatory Capture Daniel Carpenter,David A. Moss,2014 Leading scholars from across the social sciences present empirical evidence that the obstacle of regulatory capture is more surmountable than previously thought
