Accident Society Jason Puskar, 2012-01-11 This book argues that language and literature actively produced chance in the late nineteenth and early twentieth centuries by categorizing injuries and losses as innocent of design Automobile collisions and occupational injuries became car accidents and industrial accidents During the post Civil War period of racial ethnic and class based hostility chance was an abstract enemy against which society might unite By producing chance novels by William Dean Howells Stephen Crane Anna Katharine Green Edith Wharton Theodore Dreiser and James Cain documented and helped establish new modes of collective interdependence Chance here is connected not with the competitive individualism of the Gilded Age but with important progressive and social democratic reforms including developments in insurance which had long employed accident narratives to shape its own mutual society *Accident Society* reveals the extent to which American collectivity has depended and continues to depend on the literary production of chance

Going by Contraries Robert Bernard Hass,2002 The ascendancy of science pushed aside Emerson s view of nature as an analogue for a kind and benevolent deity and led to a spiritual crisis that Robert Frost attempted to address in his work Hass English Edinboro U of Pennsylvania argues that this was the central concern of Frost s work throughout his career Frost consistently argued that poetry must seek to find a consistent rationality that strives towards wisdom and firmly rejected Poe s conception of poetry as mere ornament or the more revolutionary conceptions of the American Modernists Hass traces Frost s career as one in which he slowly overcame his fear of materialism and was able to restore his religious faith Annotation copyrighted by Book News Inc Portland OR
